Special
Signals
for Fires
in the
Blue Hills
Reservation.

Running Card.

Engine No. 1 and Hose No. 1 will respond to all alarms and signals.
 Ladder Truck No. 1 will respond to all alarms and signals except signal 451.
 Combination No. 1 will respond to all alarms but not to signals calling for apparatus to go out of town.

Hose No. 2 will respond to first alarms from Boxes 31, 32, 34, 36, 39, 341, 41, 42, 412, 6, 62, 63, 64, 65, 67, 68, 69, 652, 671, 71, 73.

Hose No. 3 will respond to first alarms from Boxes 35, 312, 315.

Hose No. 4 will respond to first alarms from Boxes 12, 13, 14, 15, 17, 142, 151, 21, 23, 24, 25, 27, 35, 37, 38, 312, 315, 371, 5, 51, 52, 53, 54, 56, 57, 512, 521, 542.

When, after an alarm has been sounded, and before the all-out signal for the same has been given, an alarm is given from another box, the alarm from the second box is to be responded to the same as a General Alarm.

Directions in Case of Fire.

Get the key to the nearest box, open and pull the lever all the way down once, then let go and close the door.

Remain at the station, if possible, after giving an alarm, to direct the firemen to the fire.

Second alarms will be given only by one of the Engineers.

Citizens are earnestly requested to keep themselves informed as to the location of the keys. Signs over each box will give the desired information.

Caution to Persons Holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the Engineers at once.

75th
ANNUAL TOWN REPORT
OF
MILTON
MASS.

FOR THE YEAR ENDING
DECEMBER 30, 1911

COMPILED BY
THE AUDITORS

POOLE PRINTING CO.
221 HIGH STREET
BOSTON

STATEMENT OF THE AUDITORS

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 30, 1911, and have found the same correct.

Respectfully submitted,

JAMES F. MITCHELL
WILLIAM B. BATCHELDER } *Auditors*

MILTON, MASS., Dec. 30, 1911.

REVISED BY-LAWS.

TOWN OF MILTON, MARCH 2, 1902.

*Adopted by the Town and approved by the Superior Court
May 20, 1902.*

CHAPTER 1.

GENERAL PROVISIONS.

SECTION 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

SECT. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

SECT. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The words *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Law shall, when received, inure to the use of the town, and be paid into the town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any town officer or board of town officers, issued under any of the By-Laws of the town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the town may be repealed or amended, or other By-Laws may be adopted, at any town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2.

TOWN MEETINGS.

SECTION 1. The warrants for all town meetings shall be directed to the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of town officers shall be held upon the first Monday of March, the polls to be open at seven o'clock in the forenoon, and after the election of a Moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P.M. a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall

be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

- to adjourn,
- to lay on the table,
- for the previous question,
- to postpone to a time certain,
- to commit (or recommit) or refer,
- to amend or substitute,
- to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the town meeting of the ensuing year.

CHAPTER 3.

THE WARRANT COMMITTEE.

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the town, the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment; and they shall report in print before all such town meetings their estimates and recommendations for the action of the town.

CHAPTER 4.

THE TOWN'S FINANCES AND PROPERTY.

SECTION 1. The financial year shall begin with the first day of March.

SECT. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town, a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report

shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants; also statements of the liabilities of the town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the town.

SECT. 6. The Selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the town shall commit the town to any expenditure or liability which

would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town, either by the Selectmen or other town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the town.

SECT. 12. The Selectmen shall have full authority as agents of the town to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5.

THE CEMETERY.

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6.

POLICE REGULATIONS.

SECTION 1. No person shall move or assist in moving any building, over any way which the town is obliged to keep in repair, without the written permit of the Selectmen

being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public

way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the town for all expenses and damages which, or for which, the town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in

connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any signboard of the town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge

or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have

painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the town may be made by any constable or police officer of the town.

CHAPTER 7.

THE CONSTRUCTION AND INSPECTION OF BUILDINGS.

SECTION 1. There shall be in the town a department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the Selectmen may provide.

SECT. 2. The officer of said department shall be called the Inspector of Buildings. He shall be appointed by the Selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the Selectmen.

SECT. 3. Wherever the word Inspector without further addition occurs in this chapter, it means the Inspector of Buildings.

SECT. 4. The Inspector shall keep a record of all business of the department, and shall submit to the Selectmen such reports of the same as they may require.

SECT. 5. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 6. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote designating building limits within the town; and upon the acceptance of said vote by the town at a meeting called as provided by law, said building limits shall be established. Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 7. Until building limits are established as provided in Section 6, the provisions of this chapter shall apply to the erection, alteration and removal of buildings and other structures throughout the town. After the establishment of such building limits said provisions, save as otherwise specified therein, shall apply to the erection, alteration and removal of buildings and other structures within such building limits only.

SECT. 8. No work shall be done upon any wall, building or other structure except such repairs as may be necessary for the preservation of the same, nor shall any wall, building, or other structure be erected, raised, moved, enlarged, altered, or torn down, without a permit from the Inspector.

SECT. 9. Applications for such permits shall be in writing upon blanks furnished by the town, and shall be directed to the Inspector, who shall keep a record of the same.

SECT. 10. In the case of an application for a permit to erect, raise, move or alter a building or other structure where the Inspector is of opinion, because of all the circumstances, that the reasons for the provisions of this chapter do not apply, the Inspector may, with the consent in writing of the Selectmen, issue a special permit waiving all or any of said

provisions. But before such permit is granted, three days' notice in writing from the Inspector shall be served upon all persons owning land within two hundred feet of the proposed building or structure, in order that such owners may be heard in opposition to the granting of such permit. The Selectmen shall keep a record of all such permits to which they consent.

SECT. 11. The framing plans and specifications of every building or other structure, and of every alteration in a building or other structure, for which a permit is required, shall be deposited temporarily with the Inspector. A copy of the plans and specifications of public buildings and of every alteration in a public building shall be deposited permanently with him. All plans and specifications deposited under this section shall be dated and signed by the Inspector immediately upon being received by him.

SECT. 12. Every permit issued by the Inspector shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 13. The Inspector shall not give a permit for the erection of any building or other structure until he has inspected the plans and specifications thereof, and ascertained that the building as planned has sufficient strength, proper means of ingress and egress, and that it conforms to the law and the By-Laws of the town, or for the alteration of any building or other structure already erected, until he has examined said building or other structure and the plans and specification of said alteration, and has satisfied himself that said building as altered will have sufficient strength, proper means of ingress and egress, and will conform to the law and the By-Laws of the town.

SECT. 14. The Inspector shall inspect all work for which a permit has been issued, and shall see that it is being carried on according to law and the By-Laws of the town.

SECT. 15. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or which is to be used for the manufacturing of chemicals, or for the alteration or the moving of any building for any of such uses, shall be granted until after public hearing before the Selectmen; and no building for any of such purposes shall be erected, altered or moved without such permit. Notice of such hearing shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within five hundred feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

SECT. 16. No boiler to furnish steam for power shall be set or erected, except on a permit from the Inspector, issued after a hearing as prescribed in the preceding section.

SECT. 17. Permits for the erection, alteration, or moving of any building to be used as a stable in which more than four horses are to be kept shall only be granted after hearing as provided in Section 15. Notice of such hearing shall be sent to the Board of Health of the town, in addition to the notices prescribed in said Section 15.

SECT. 18. The provisions of Sections 15, 16 and 17, shall apply to the whole town irrespective of building limits.

SECT. 19. The Selectmen may, in their discretion, after a hearing as provided in Sections 15, 16 and 17, instruct the Inspector not to issue the permit asked for, and in such case no such permit shall issue.

SECT. 20. In case the owner of any building or other structure, or an applicant for a permit to erect, move or alter a building or other structure, is dissatisfied with any order or decision of the Inspector made in any of the proceedings

prescribed in this chapter, the matter shall be referred to the Selectmen, who, within one week from said reference, shall hear the parties, and after taking such expert opinion as may seem to them to be necessary, give their decision. In case the decision of the Inspector is affirmed, the expense of any expert opinion taken by the Selectmen shall be paid to the town by the owner or applicant on demand; otherwise such expense shall be borne by the town.

SECT. 21. Every portion of every building or other structure in process of construction, alteration, repair or removal, and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 22. All chimneys shall be built of brick or stone, and shall be lined with flue lining starting two feet below all thimble holes and at least two feet below the under side of first-floor timbers, and extending above the roof boarding; or shall have an eight-inch brick or stone wall from the foundation to the roof boarding, and shall be topped at least three feet above the highest point of contact with roof.

SECT. 23. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

SECT. 24. Sills and girders shall be of sufficient size to safely support the superstructure.

SECT. 25. All woodwork, including lath and plaster, within two feet of any heating apparatus or smoke pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

SECT. 26. All partitions in which hot air pipes run shall be lined with sheet metal, or the pipes shall be wound with asbestos covering.

SECT. 27. Where dwellings of more than two stories are to be occupied by more than two families, there shall be at least two flights of stairs from the ground floor to the top floor, or one flight from the ground floor to the top floor inside, together with an approved fire escape outside.

SECT. 28. The studding of main or carrying partitions shall be not less than four inches in thickness, and shall have a proper support at bottom with a header not less than three inches in depth unless hard pine is used, then it may be two inches. All openings in main partitions of more than thirty inches shall be trussed over and have double studding at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding, and two inches thick at least once in height.

SECT. 29. The studding in outside walls and in partitions shall be not more than sixteen inches on centres unless permission is otherwise granted.

SECT. 30. For buildings other than wooden dwelling-houses the size of floor timbers shall be of sufficient size in the opinion of the Inspector to safely carry the weight intended. In wooden dwelling houses the floor timbers for a 12 to 14 foot span shall be not less than 2 x 8; for a 14 to 16 foot span, not less than 2 x 9; for a 16 to 18 foot span, not less than 2 x 10; for an 18 to 20 foot span, not less than 2 x 12; in every case the timbers shall be not more than 16 inches apart on centres.

SECT. 31. All headers and trimmers shall be double the thickness, framed together and pinned or hung in stirrup iron and joint bolted.

SECT. 32. All floor joists on the first floor shall be framed in even with the bottom of the sill and stopped off between where they come above the sills, either with joists or brick. Fire stops, the full width of the studding, and not less than

three inches thick, shall be cut in on top of the floor joists on each floor above the first floor.

SECT. 33. All floor timbers shall be bridged, in a space of more than eight feet, with 1 x 3 inches, or 2 x 3 inches, stock, properly nailed at each end.

SECT. 34. The rafters of all buildings shall be of sufficient size, in the opinion of the Inspector, to safely carry the weight that must necessarily be put upon them, and be placed not over twenty inches apart on centres.

SECT. 35. In dwellings arranged for two or more families, side by side, the vertical division walls between the families shall be either of brick not less than eight inches thick and continued without break or interruption from cellar bottom to roof boarding, or of studding not less than four inches in thickness; and the spaces between the studding shall be filled solid, either with brick and mortar, mineral wool, or other incombustible material, approved by the Inspector, and this fire-proof filling shall continue up to the roof boarding.

SECT. 36. All hearths shall be supported by trimmer arches of brick or stone.

SECT. 37. All piers shall be built of brick or iron columns on proper stone or brick footing, and be of such size as to safely carry the weight they are intended to sustain. Brick piers shall be built of hard-burned brick laid in cement mortar.

SECT. 38. All wooden buildings hereafter erected shall have the sills, posts and girts mortised, tenoned and pinned together and supported by suitable studding, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches and shall be properly tied to all girders, and a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading.

SECT. 39. Posts and girts shall be not less than 4 x 6 inches, other posts not less than 4 x 8 inches, and plates not less than 4 x 4 inches.

SECT. 40. No wooden building shall be built within two feet of the line of an adjoining lot, unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

SECT. 41. Every wooden building or structure hereafter erected shall have a stone or brick foundation resting upon the solid ground or upon concrete, piles, or other durable substructure; said foundation shall be securely and properly built, shall have a sufficient amount of large stone extending through the wall to properly bond and tie it together, and shall be of such thickness as to properly sustain the weight it is intended to support.

SECT. 42. The underpinning above grade, if of brick, shall be not less than ten inches in thickness; if of stone, not less than fourteen inches in thickness, and shall be laid in mortar.

SECT. 43. All foundation walls shall be laid at least three inches below cellar bottom, and not less than three feet six inches below any adjoining surface exposed to frost.

SECT. 44. Every building or structure hereafter built of brick, stone, iron or other hard and incombustible materials shall have foundations resting upon the solid ground, or upon concrete, piles or other durable substructure, and not less than four feet below any adjoining surface exposed to frost.

SECT. 45. Foundation walls for such buildings as are designated in Section 44 shall be built of brick, stone or other suitable substance, properly bonded and solidly built with one-half cement mortar.

SECT. 46. For brick buildings with walls not exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall not be less than thirty inches thick at bottom and twenty inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than

sixteen inches the entire height, and shall rest on a footing course twelve inches high and twenty-four inches wide.

SECT. 47. For brick buildings exceeding thirty-five feet in height the foundation walls, if built of common stone, shall be not less than thirty-six inches thick at bottom and twenty-four inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than eighteen inches thick the entire height, and rest on a footing course twelve inches high and thirty inches wide.

SECT. 48. Party or partition walls shall be built upon a footing course of stone or brick not less than four inches each way larger than thickness of the wall it is to sustain, and twelve inches high.

1988496

SECT. 49. External walls of brick buildings less than fifteen feet in height shall be not less than eight inches thick; over fifteen and less than thirty-five feet in height they shall be not less than twelve inches thick, except when the building is used as a dwelling-house, then the walls of the upper story may be not less than eight inches thick; over thirty-five feet in height the walls shall be not less than sixteen inches thick to the top of second floor, and twelve inches thick the remaining height.

SECT. 50. In every brick wall at least every ninth course shall be a heading or bonding course, except where walls are faced with face brick, in which at least every ninth course shall be bonded with Flemish headers, or by cutting the courses of face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

SECT. 51. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 52. In reckoning the thickness of walls, no allow-

ance for ashlar shall be made unless it is at least eight inches thick, in which case the excess over four inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

BUILDING GRADES.

SECT. 53. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of and to be effected by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid and addressed to them at their last known residence or place of business, pass a vote designating a building grade or building grades for any part or parts of the town; and on the acceptance of such vote by the town at a meeting called as provided by law, said building grade or building grades shall be established.

SECT. 54. Said building grade or building grades may be at different heights above the level of the sea in different parts of the town, as the nature of the ground may require.

SECT. 55. No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building on such land which has no cellar, shall be below said grade.

OTHER PROVISIONS.

SECT. 56. The Inspector in the name of the town may take such measures as the public safety requires, to carry

the provisions of this chapter into effect; and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 57. Any person violating any of the provisions of this chapter shall be liable to a fine of not less than \$20, nor more than \$100, for each offence.

CHAPTER 8.

THE REGULATION AND INSPECTION OF PLUMBING.

SECTION 1. The word Inspector, without further addition, wherever used in this chapter, means the Inspector of Plumbing.

SECT. 2. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the Inspector of Buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said Inspector of Buildings.

SECT. 3. Every plumber before doing any work in a building shall, except in the repair of leaks, file at the office of the Inspector upon blanks furnished for that purpose a notice of the work to be performed; and no such work shall be done in any building without the approval of the Inspector.

SECT. 4. No pipes or other fixtures shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All plumbing work shall be subjected to the water test before the fixtures are set. After all the fixtures

are set the work shall be subjected to the smoke, peppermint or other reliable test under pressure. All such tests shall be made in the presence of the Inspector.

SECT. 6. The sewage and waste piping of every house or building shall each be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such system shall be used as may be approved by the Inspector.

SECT. 7. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast-iron with leaded and calked joints, but galvanized wrought-iron pipe may be used for vent purposes; all such pipes shall be properly secured to walls and ceilings with wrought-iron hangers. Waste-pipes shall be of cast-iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast-iron recessed fittings. No soil-pipe of any building shall be less than 4 inches inside diameter, except by written permission of the Board of Health. No vent-pipe shall be less than $1\frac{1}{2}$ inches inside diameter. No waste-pipe shall be less than $1\frac{1}{4}$ inches inside diameter.

SECT. 8. All drain-pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point 10 feet outside of the cellar wall. The pipe from the sewer or cesspool to within 10 feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside of the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least 2 feet above the highest window on the roof. Every drain-pipe, except a drain-pipe from a building having but one sink or but one sink with adjoining trays,

shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain-pipe leaves the building. All changes in direction of soil-pipes shall be made by Y branches or by curved pipes. No ventilation pipe on the outside of any building shall be less than 2 inches inside diameter.

SECT. 9. All joints in iron drain-pipes, soil or vent pipes shall be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full-sized wiped joint and calking the ferrules to pipes which are of cast-iron, or screwing them to pipes which are of wrought-iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of four or less wash-trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins or a sink and a set of four or less wash-trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe. All fixture traps shall be protected from syphonage or air pressure by special vent-pipes having a diameter not less than the diameter of the waste-pipe and connected with the waste-pipe at a point not lower than the seal of the trap in such manner as to make the vent-pipe a continuation of or a Y branch from the waste-pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent-pipe unless the length of the waste-pipe from the trap of said fixture to the said stack exceeds 3 feet. Lead vent-pipes may be used only where they are exposed to view. Vent-pipes for water-closets shall be of not less than 2 inches bore and may be connected with the water-closet waste-pipe below the level of the trap seal. Two or more vent-pipes may be connected together or with a soil-pipe, but

such connection with a soil-pipe shall be above the uppermost fixture connected with such soil-pipe.

SECT. 11. No drip- or overflow-pipes from safes under water-closets, urinals, or other fixtures, no overflow-pipes from tanks or cisterns, no waste-pipes from refrigerators or other receptacles in which food is stored, no rain-water conductors, and no steam exhaust-pipes or steam waste-pipes, shall be connected with any soil-pipe. No openings shall be allowed in the soil- or waste-pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil- or waste-pipe.

SECT. 12. Every water-closet or line of water-closets on the same floor inside of the building proper shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ inches diameter inside.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. Every privy vault shall be at least four feet distant from the line of an adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the Inspector, the surroundings require it.

SECT. 15. No water-closet shall be inclosed with any upright woodwork.

SECT. 16. None of the provisions of the foregoing Sections of this Chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. In the case of any dispute or difference in opinion between the Inspector and any person, the same shall be submitted by either party to the Local Board of Health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the Inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 17. The Inspector of Buildings, in the name of the town, may take such measures as the public safety requires, to carry the provisions of this chapter into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. A person violating any of the provisions of this chapter shall be liable to a fine not exceeding \$50.

CHAPTER 9.

STREET RAILWAYS.

SECTION 1. The annual report shall contain the following concerning the street railways in the town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made

by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10.

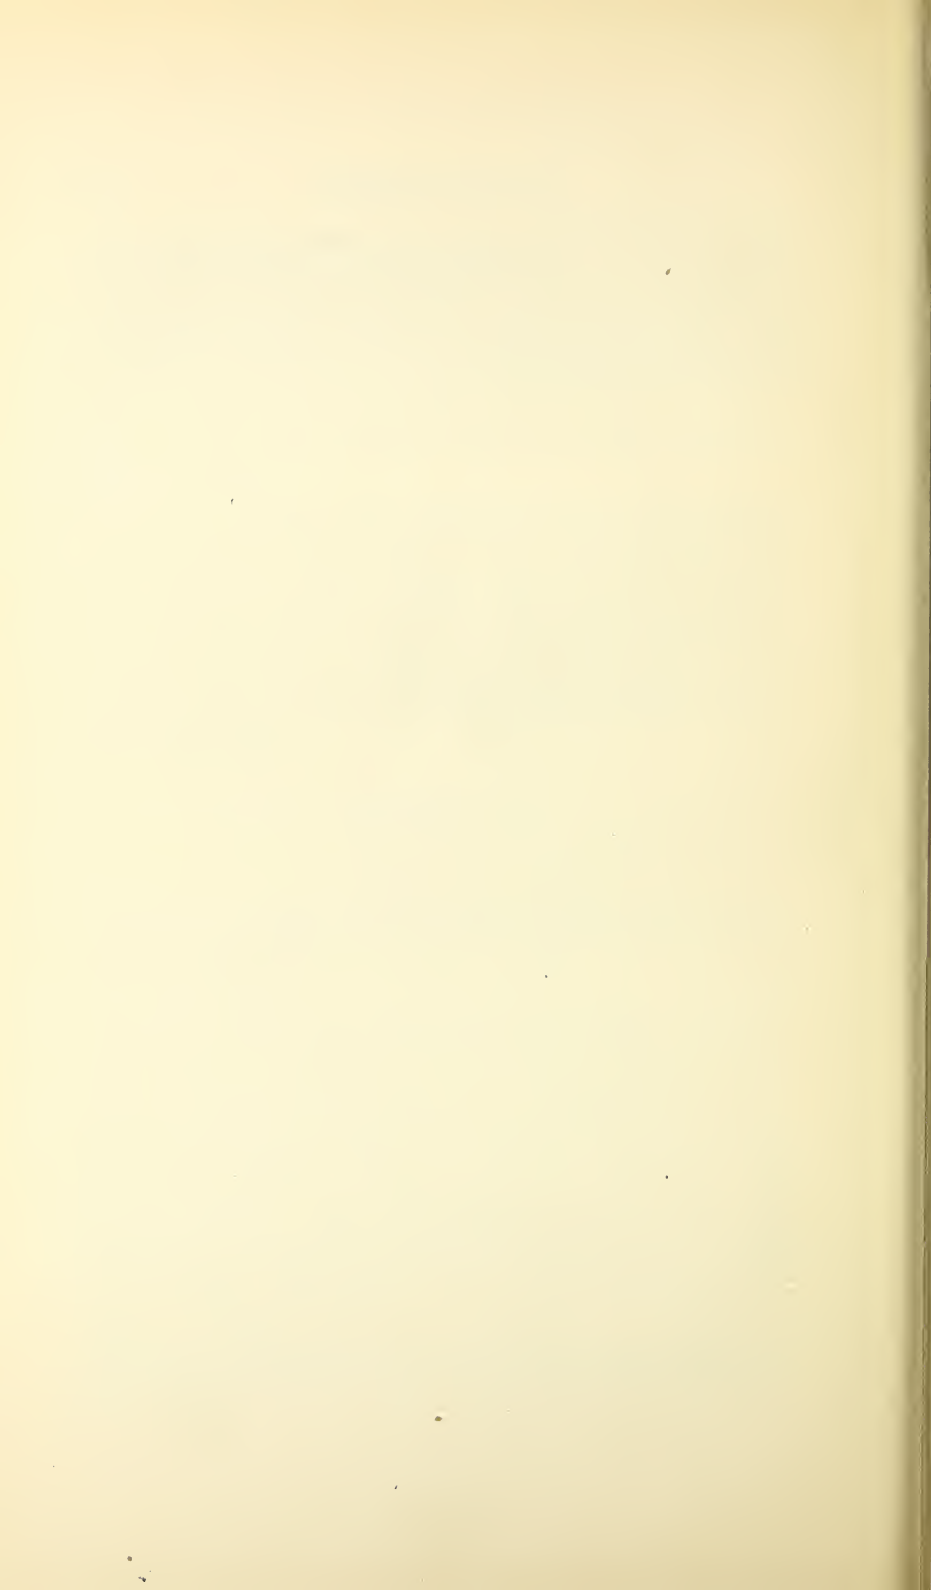

TOWN WAYS.

SECTION 1. Every way that shall be laid out for the acceptance of the town as a town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the town as a town way, the document relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said document, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the

town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON.

MARCH 19, 1866. *Voted*, To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

MARCH 2, 1874. *Voted*, To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the Town of Milton.

MARCH 4, 1878. *Voted*, To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers.

MARCH 3, 1879. *Voted*, To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee.

DECEMBER 8, 1879. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 1, 1880. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 5, 1883. *Voted*, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children.

MARCH 7, 1881. *Voted*, To accept the Act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners."

MARCH 3, 1890. *Voted*, To accept the first nine sections of Chapter 51 of the Public Statutes, said chapter being entitled, "Of Betterments, and Other Assessments on Account of the Cost of Public Improvements."

FEBRUARY 12, 1891. *Voted*, To accept the Act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882.

MARCH 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of Town Officers.

FEBRUARY 3, 1894. *Voted*, That the Town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts passed in the year 893, relative to the election of a separate Board of Assessors.

NOVEMBER 28, 1894. *Voted*, That the Town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled, "An Act Relative to the Reservation of Spaces in Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 309 of the Acts of 1885, entitled, "An Act Authorizing Cities and Towns to License Groves, to be Used for Picnics and Other Lawful Amusements."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Section 272 of Chapter 417, Acts of the Legislature of 1893, relating to the election of Sewer Commissioners in towns.

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 462 of the Acts of the Legislature of 1893, entitled "An Act to Authorize the Establishment of a Building Line on Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 218 of the Acts of the Legislature of 1894, as amended by Chapter 473 of the Act of the same year, being "An Act Relative to the Election of Boards of Health in Towns."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Sections 20 and 21 of Chapter 50 of the

Public Statutes, relating to the establishment and grading of sidewalks, by the Selectmen.

JUNE 29, 1895. *Voted*, That the Town accept the provisions of Chapter 304 of the Acts of 1895, entitled, "An Act to Authorize the Town of Milton to Construct One or More Systems of Sewerage."

MARCH 1, 1897. *Voted*, That the Town accept Chapter 101 of the Public Statutes, entitled, "Of the Suppression of Common Nuisances."

MARCH 1, 1897. *Voted*, That the provisions of Chapter 481 of the Acts of the year 1894, be accepted, entitled, "Regulation and Inspection of Buildings."

MARCH 5, 1900. *Voted*, That Chapter 344, Acts of 1899, entitled, "An Act to Make Eight Hours a Day's Work for City and Town employees," be accepted.

MARCH 3, 1902. *Voted*, That the Town accept Section 18 of Chapter 122 of the Revised Laws, relative to the appointment of an Inspector of Wires.

MARCH 3, 1902. *Voted*, That the Town accept Chapter 38 of the Revised Laws of Massachusetts, relative to the election of a treasurer of Public Library Trustees.

JULY 14, 1902. *Voted*, To accept Chapter 307 of the Acts of 1902, entitled, "An Act to Supply the Town of Milton with Water."

AUGUST 16, 1902. *Voted*, To accept Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to jurisdiction of towns over highways and county bridges.

MARCH 2, 1903. *Voted*, To accept Sections 20 and 21, of Chapter 25 of the Revised Laws of Massachusetts, relating to public baths, etc.

MARCH 2, 1903. *Voted*, To accept Section 339 of Chapter 11 of the Revised Laws, and Acts in amendment thereof

nd in addition thereto, relative to the election of Overseers of the Poor.

MARCH 7, 1904. *Voted*, To accept Section 70 of Chapter 75 of the Revised Laws, relating to privy vaults.

MARCH 6, 1905. *Voted*, To accept Chapter 103 of the Revised Laws, relative to supervision of plumbing.

JULY 21, 1905. *Voted*, To accept Chapter 381 of the Acts of 1905, relative to the suppression of gypsy and brown-tail moths.

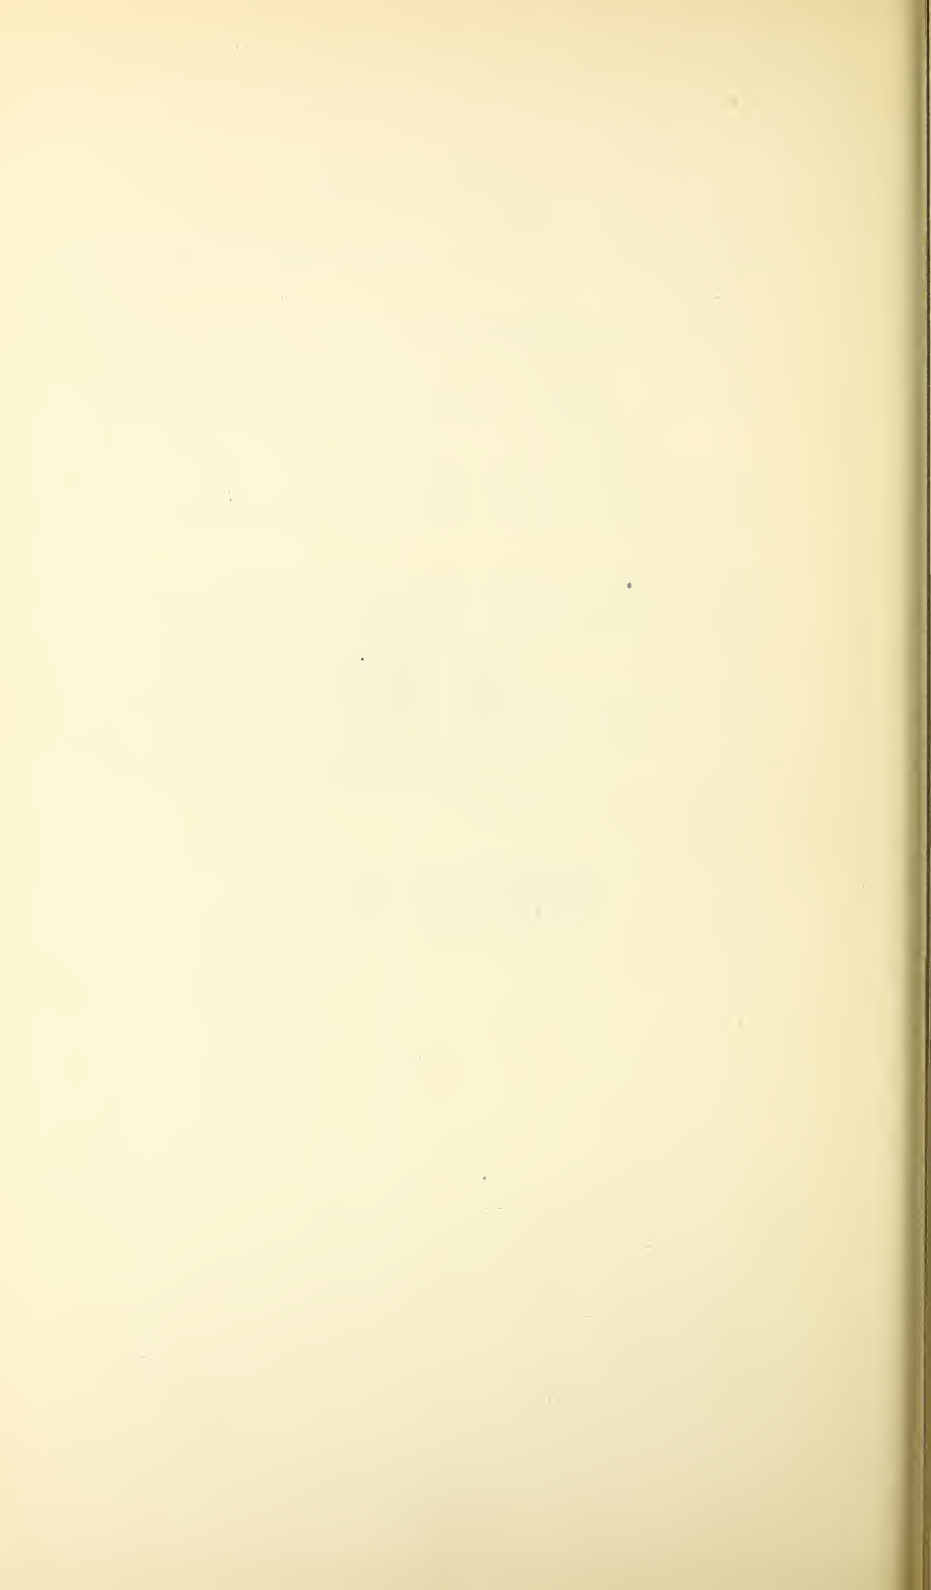

MARCH 1, 1909. *Voted*, To accept the provisions of Chapter 476, Acts of 1908, relative to vacations of members of Police departments.

MARCH 7, 1910. *Voted*, To accept the provisions of Section 43 of Chapter 49 of the Revised Laws, relative to the grading and construction of sidewalks.

MILTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1911-1912.

MARCH MEETING.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet in the Town Hall in said Milton, the sixth day of March next, at 6 o'clock A.M., then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ARTICLE 2. To choose all such Town officers as are required by law to be chosen by ballot, also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls to be opened at six o'clock in the forenoon and may be closed as early as two o'clock in the afternoon.

ARTICLE 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ARTICLE 4. To hear and act upon the Auditors' report, and reports of other Town officers and committees.

ARTICLE 5. To see what sum of money the Town will appropriate for the support of the Schools the ensuing year.

ARTICLE 6. To see what sum of money the Town will appropriate for the transportation of pupils the ensuing year.

ARTICLE 7. To see what sum of money the Town will appropriate for the medical inspection of the pupils of the public schools the ensuing year, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see what sum of money the Town will appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the ensuing year.

ARTICLE 9. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

ARTICLE 10. To see what sum of money the Town will appropriate for the Street Department the ensuing year.

General Expenses.	Street Watering.
Construction of Sidewalks.	Removal of Ice and Snow.
Maintenance of Public Fountains.	

ARTICLE 11. To see if the Town will vote to accept Elm Street from Canton Avenue to a point 600 feet northerly, as laid out by the Selectmen, as a Town way.

ARTICLE 12. To see if the Town will vote to accept Kahler Avenue, as laid out by the Selectmen, as a Town way.

ARTICLE 13. To see what action the Town will take with reference to the cancellation of the existing contract for Street Lighting, and the making of a new contract.

ARTICLE 14. To see what sum of money the Town will appropriate for street lighting the ensuing year.

ARTICLE 15. To see if the Town will vote to erect two electric lights on Frothingham Street, and appropriate money for the same.

ARTICLE 16. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ARTICLE 17. To see if the Town will vote to erect a new fire alarm box at or near the corner of Blue Hills Parkway and Brook Road, and appropriate money for the same.

ARTICLE 18. To see what sum of money the Town will appropriate for the use of the Department of Wires the ensuing year.

ARTICLE 19. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ARTICLE 20. To see if the Town will vote to accept the provisions of Chapter 327 of the Acts of 1904 relative to the pensioning of permanent members of the Police and Fire Departments.

ARTICLE 21. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ARTICLE 22. To see what sum of money the Town will appropriate for the collection of ashes and garbage the ensuing year.

ARTICLE 23. To see what sum of money the Town will appropriate for hydrant service the ensuing year.

ARTICLE 24. To see what sum of money the Town will appropriate for the extension of water mains.

ARTICLE 25. To see what sum of money the Town will appropriate for the maintenance of the Sewer Department the ensuing year.

ARTICLE 45. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

ARTICLE 46. To see what action the Town will take in regard to borrowing money in anticipation of taxes.

ARTICLE 47. To see if the Town of Milton will direct its Selectmen to prepare a division of the Town into convenient voting precincts as provided in Chapter 560, Section 195, of the Acts and Resolves of the General Court in the year nineteen hundred and seven.

ARTICLE 48. To see what sum of money the Town will appropriate to be expended by the Selectmen for a band concert and athletic sports for the celebration of the Fourth day of July.

ARTICLE 49. To see what action the Town will take toward celebrating in 1912 the 250th anniversary of its

incorporation, and what sum of money it will appropriate therefor.

ARTICLE 50. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before Committees of the General Court.

ARTICLE 51. To see what sum of money the Town will appropriate for the purpose of providing and maintaining a hose wagon and equipment for the protection of the south section of the Town.

ARTICLE 52. To see what action the Town will take with reference to the improvement of its property at the Lower Mills, between Adams Street and Neponset River, known as the Town Landing, and to appropriate money for the same.

ARTICLE 53. To see whether the Town will instruct the School Committee to make a demand upon the Leopold Morse Home for Infirm Hebrews and Orphanage, and its Trustees or Managers, for the extra school expense incurred by the Town for the tuition in its public schools of certain children between the ages of five and fifteen years, not theretofore resident therein, who are inmates of said Institution, and act on anything relating thereto.

ARTICLE 54. To see if the Town will vote to elect its Moderators for the term of one year, according to the provisions of Section 359 of Chapter 560 of the Acts of the year 1907.

ARTICLE 55. To see if the Town will vote to accept the provisions of Chapter 598 of the Acts of 1910 relative to the audit of Town accounts by the director of the Bureau of Statistics.

ARTICLE 56. To see if the Town will vote to accept the provisions of Chapter 624 of the Acts of 1910, relative to a Town Accountant.

ARTICLE 57. To see if the Town will vote to have a committee of three citizens appointed by the Moderator, who shall investigate the matter of the overcrowding of apartment, tenement and lodging houses, with special reference to the possibility of such conditions obtaining in Milton, and with power to apply for legislation in case that it be deemed desirable as a result of their investigation; said committee to report in writing to the Town at its next annual meeting.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Town fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton, this seventeenth day of February, Nineteen Hundred and Eleven.

MAURICE A. DUFFY,

PHILIP S. DALTON,

HENRY H. BARNES,

Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

MILTON, March 4, 1911.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of the Town, and by leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant, March 6, 1911, the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Robert F. Herrick, Esq., was chosen Moderator, and was sworn by the Town Clerk.

The following appointments of Ballot Clerks and Tellers were made by the Selectmen, to serve at said meeting, viz.:

Ballot Clerks: Davis S. Littlefield, Edward Gallagher, Walter B. Palmer, Thomas M. Lennon, Fred A. Packard, Charles E. Whalen.

Tellers: G. Frank Kemp, Charles A. Splaine, J. Albert Simpson, Daniel B. McDonald, Edward F. W. Bartol, James A. Roberts, Walter Cheney, Charles F. Gage, John A. Larrabee, Reginald M. Johnson, Lewis B. Currier, J. Arthur Robson, Charles B. Abbott, Robert J. Clark, William A. Haley, Frank L. Richards, Joseph A. Rein, Stephen Bianchi, Prescott Skinner; all of the above-named Ballot Clerks and Tellers being sworn by the Town Clerk.

At 2 o'clock and 10 minutes, *Voted*, To close the polls for Town Officers in ten minutes.

All ballots cast for the various Town Officers having been sorted, counted, declared and recorded, the result being as hereby appended, and the following officers chosen, namely:

ART. 2. Henry H. Barnes, Philip S. Dalton, Maurice A. Duffy were chosen Selectmen and Surveyors of Highways.

Henry B. Martin was chosen Town Clerk.

George W. Nickerson was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

Anne R. Cunningham, Reginald L. Robbins were chosen School Committee.

Josiah Babcock was chosen Collector of Taxes.

William B. Batchelder, James F. Mitchell were chosen Auditors.

Horatio A. Lamb was chosen Park Commissioner.

Asaph Churchill (for three years), Charles G. Waitt (for one year) were chosen Sewer Commissioners.

Thomas B. Gordon was Chosen Water Commissioner.

L. Raymond Burnett, M. D., was chosen on Board of Health.

The following Constables were chosen: Peleg Bronsdon, Herbert R. Lawrence, Timothy McDermott, James Wigley, Duncan B. Walker, John S. Bowley, Edward Burns, Charles Splaine, James Travers, Maurice Pierce.

Rev. Roderick Stebbins, Arthur H. Tucker, Harry K. White were chosen Trustees of Public Library.

J. Frank Pope was chosen Trustee of Cemetery.

Nathaniel T. Kidder was chosen Tree Warden.

Walter D. Brooks was chosen Overseer of Poor.

Voted, That no license be granted for the sale of intoxicating liquor in this town, the ballot being as follows: Yes, 200; No, 729.

ART. 3. The following officers were elected *viva voce*, namely: George Y. Badger, T. M. LeFevre, Fence Viewers. George E. Burt, Arthur H. Tucker, Surveyors of Lumber. Calvin H. Sanford, Pound Keeper.

ART. 4. *Voted*, That the Auditors' (printed) Report be accepted and placed on file.

Voted, That the Report of the Committee on Pensions (printed) be accepted and placed on file.

The following report of the Committee on the Improvement of the Town Landing was presented by the Chairman, James S. Russell, Esq.

MILTON, Feb. 27, 1911.

To the Citizens of Milton:

Your Committee appointed last March to investigate and report upon the Town Landing at the Lower Mills begs to submit the following:

The Landing contains something over two acres, of which perhaps three-quarters is upland, and one-quarter flats.

The frontage on Adams Street is about eighty-five feet, while along the channel of the Neponset the frontage is about three hundred and fifty feet, of which one hundred feet are occupied by a stone wharf, the balance being unimproved mud flats.

On the Landing are various buildings reached from Adams Street by means of Wharf Street; owing to the irregular shape of the Landing, these buildings are not symmetrically arranged, and on account of business reasons they exhibit much diversity of outline.

On the basis of recent rentals the Landing is yielding an income to the Town of about \$450 a year. There are no leases in force at present, all tenants being at will.

After organizing with Mr. Russell as Chairman, and

Mr. Wigglesworth as Secretary, your Committee gave a public hearing in the small Town Hall last January 23rd.

At this hearing there were about fifty citizens present whose unanimous opinion as expressed in a number of speeches, and later by a vote, was in favor of using the Town Landing for public recreation, rather than for private gain.

Your Committee has caused an article to be put in the warrant for this meeting so that the Town may decide as to what policy it prefers to pursue toward the Landing from now on.

In view of the growth of Milton, both in population and in wealth, it seems to your Committee that the time has arrived when the income from the Landing should be disregarded, and that for the future this piece of public property should be used so as to give pleasure to all our people.

Respectfully submitted,
(Signed) H. CLIFFORD GALLAGHER,
HORACE B. HORNE,
TIMOTHY W. MELLEY,
JAMES S. RUSSELL,
NORTON WIGGLESWORTH,
Committee.

Voted, That the above report be accepted and the Committee discharged.

NOTE.—Under Article 52, of the warrant for the March Meeting 1911, the above Committee was reappointed.

ART. 5. *Voted*, To appropriate the sum of \$86,000 for the support of schools the ensuing year.

ART. 6. *Voted*, To appropriate the sum of \$2,000 for transportation of pupils the ensuing year.

ART. 7. *Voted*, To appropriate the sum of \$650 for medical inspection of the pupils of the public schools the ensuing year, said sum to be expended under the direction and at the discretion of the School Committee.

ART. 8. *Voted*, To appropriate the sum of \$100 to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the ensuing year.

ART. 9. *Voted*, To appropriate the sum of \$100 for general use of the Board of Park Commissioners the ensuing year.

ART. 10. *Voted*, To appropriate for Street Department expenses the ensuing year the following sums, viz.:

For general expenses (plus the Street Railway tax), \$42,000.

For construction of sidewalks, \$2,000.

For street watering and oiling, \$9,500.

For removal of ice and snow, \$2,500.

For maintenance of public fountains, \$400.

ART. 11. *Voted*, To accept Elm Street as laid out by the Selectmen, as a Town way.

ART. 12. *Voted*, To accept Kahler Avenue as laid out by the Selectmen, as a Town way.

ART. 13. *Voted*, That the Board of Selectmen be and hereby are authorized to cancel the present contract with the Edison Electric Illuminating Company, and enter into a new contract with said Company. for street lighting for the Town for a period not exceeding ten years, the cost to the Town per light, under such new contract, to be no greater than under the existing contract,

provided the Company will give an extra discount of five per cent on the present rates, and insert a clause in the new contract permitting its cancellation at the end of five years, if the Town at that time shall so vote, and refund to the Company the extra five per cent discount.

ART. 14. *Voted*, To appropriate the sum of \$16,025 for street lighting the ensuing year.

ART. 15. *Voted*, To erect two electric lights on Frothingham Street, and that the sum of \$42.40 be appropriated therefor.

ART. 16. *Voted*, To appropriate the sum of \$24,640 for the use of the Fire Department the ensuing year.

ART. 17. *Voted*, To erect a fire alarm box at or near the corner of Blue Hill Parkway and Brook Road, and that the sum of \$125 be appropriated therefor.

ART. 18. *Voted*, To appropriate the sum of \$200 for the maintenance of the Department of Wires the ensuing year, and the further sum of \$1,800 for placing the wires of the Fire and Police departments in the underground conduits on Adams Street.

ART. 19. *Voted*, To appropriate the sum of \$27,500 for the use of the Police Department the ensuing year, and the further sum of \$750 towards the purchase of a new automobile for the use of said department.

ART. 20. *Voted*, To indefinitely postpone.

ART. 21. *Voted*, To appropriate the sum of \$2,500 for the use of the Health Department the ensuing year, said sum to include expense of inspecting sewer connections.

ART. 22. *Voted*, To appropriate the sum of \$3,300 to be expended under the direction of the Board of Health, for the collection of ashes and garbage the ensuing year, from such places as said Board may designate.

ART. 23. *Voted*, To appropriate the sum of \$9,000 for hydrant service the ensuing year.

ART. 24. *Voted*, To appropriate the sum of \$1,000 for the extension of water mains the ensuing year.

ART. 25. *Voted*, To appropriate the sum of \$750 for maintenance of the Sewer Department the ensuing year.

ART. 26. *Voted*, To appropriate the sum of \$5,000 for the extension of the sewerage system, on the condition that said sum shall be taken from the excess, if any, of the Sewer Betterment Fund, after providing from this fund for the payment of 1911 interest on sewer loans, and the principal of such sewer bonds as will mature in 1911.

ART. 27. *Voted*, To appropriate the sum of \$8,700, together with all fines received in 1911, and the Dog Tax for 1910, for the use of the Public Library the ensuing year.

ART. 28. *Voted*, To appropriate the following sums for miscellaneous expenses the ensuing year.

For general expenses, \$3,500.

For interest charges, \$9,100.

For abatement of taxes, \$3,000.

For Contingent Fund, \$3,500.

For Town Hall and lot, \$2,000.

For printing, \$2,000.

For insurance (liability and fire), \$2,800.

ART. 29. *Voted*, To appropriate the sum of \$5,800, together with the proceeds from the Town Farm, and reimbursements from other cities and towns, for the support of poor the ensuing year.

ART. 30. *Voted*, To appropriate the sum of \$1,350 for soldiers' relief the ensuing year.

ART. 31. *Voted*, To appropriate the sum of \$1,450 for State Aid the ensuing year.

ART. 32. *Voted*, To appropriate the sum of \$250 to be expended by H. F. Wolcott Post 102, G. A. R., on Memorial Day.

ART. 33. *Voted*, To appropriate the sum of \$9,000 for salaries of Town Officers the ensuing year, said officers to receive the same salary as last year, with the exception of the Inspector of Buildings, whose salary is increased to \$800.—The Clerk of the Selectmen to also act in that capacity for the Overseers of Poor.—The Inspector or Deputy Inspector of Plumbing to receive for each permit issued the sum of \$3.00; said amounts to be taken from the miscellaneous account.

ART. 34. *Voted*, To appropriate the sum of \$2,000, together with the receipts of the department, for the use of the Tree Warden, to be expended in the care and planting of shade trees, and the destruction of insect pests injurious to trees the ensuing year.

ART. 35. *Voted*, To appropriate the sum of \$10,000 together with any funds received from the State on this account, to be expended by the Tree Warden in the extermination of gypsy and brown-tail moths. •

ART. 36. *Voted*, To pay no salary to the Tree Warden, but the Town hereby desires to place upon record its great appreciation of the long, generous and faithful service, without remuneration, of said officer, Nathaniel T. Kidder, Esq.

ART. 37. *Voted*, That the Tree Warden be and he hereby is authorized to do such planting on Brook Road as seems to him wise, with a view to completing the road in accordance with plans submitted by Ernest W. Bowditch and filed with the Board of Selectmen, and not inconsistent with any reserved space that the Town may have created under authority of law.

ART. 38. *Voted*, To appropriate the sum of \$2,000 for the improvement of the Cemetery the ensuing year.

ART. 39. *Voted*, To appropriate the sum of \$500 towards the restoration of the Jason Reed Cemetery Fund, to be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ART. 40. *Voted*, To appropriate the sum of \$500 towards the restoration of the Elizabeth T. L. Reed Public Park Fund, to be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ART. 41. *Voted*, To appropriate the sum of \$2,000 towards the restoration of the Perpetual Care Fund, to be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ART. 42. *Voted*, To instruct the Town Treasurer to deposit all payments made since March 7, 1910, by lot

owners in the Milton Cemetery into the Perpetual Care Fund of said cemetery in the Milton Savings Bank or some other savings bank, or trust company incorporated under the laws of this commonwealth, upon the trust that the principal shall remain on deposit subject to the vote of the Town and the interest be paid over to the trustees of the cemetery to be expended by them in accordance with the terms of the several perpetual care agreements; such deposits to be kept separate from the fund now being accumulated to meet perpetual care obligations which accrued prior to March 7, 1910, or to be merged with said fund in the discretion of the Town Treasurer for the time being; but in any event to be merged with said fund when the latter is completely restored.

ART. 43. *Voted*, To appropriate the sum of \$975 for the general use of the Board of Assessors the ensuing year.

ART. 44. *Voted*, That the Collector of Taxes have authority to use all means of collecting taxes which a Town Treasurer when appointed collector may use.

ART. 45. *Voted*, To fix the rate of interest on taxes unpaid after Nov. 1, 1911, at six per cent.

ART. 46. *Voted*, That the Town Treasurer be authorized with the sanction and approval of the Selectmen or of a majority thereof, to borrow such sums of money as may be necessary for the Town's use in anticipation of the taxes for the year 1911, the total amount not to exceed \$200,000 and that all sums so borrowed be made specifically payable from the taxes of the year 1911.

ART. 47. *Voted*, To indefinitely postpone.

ART. 48. *Voted*, To appropriate the sum of \$200 to be expended by the Selectmen for a band concert and athletic sports for celebrating the Fourth day of July.

ART. 49. *Voted*, That a committee of five be appointed by the Moderator to consider the matter of celebrating the 250th anniversary of the Town's incorporation and arrange plans for the same, but that no appropriation be made at this meeting.

Committee appointed: Nathaniel T. Kidder, John Alden Lee, Freeland D. Leslie, Arthur H. Tucker, Andrew H. Ward.

ART. 50. *Voted*, To authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court. (Passed by a more than two-thirds vote.)

ART. 51. *Voted*, That Hose Wagon No. 3, now located in the stable of the Water Department at the Lower Mills, be removed and placed in the south section of the Town at such location as may be selected by the fire engineers, and that the sum of \$500 be appropriated for the purpose of housing, equipping and maintaining said wagon.

ART. 52. *Voted*, That no further leases be made of any portion of the Town property at the Lower Mills, between Adams Street and the Neponset River, known as the Town Landing; that a committee of five citizens be appointed by the Moderator with full authority to improve said property with the end in view of providing a place of recreation for citizens of Milton and with authority to cause the removal or alteration of buildings now on said property; that the sum of \$1,000 be hereby appropriated for the use of said committee, together with such sums as may be received by the Town from

the sale by said committee, under this vote, of buildings and materials, and that said committee report its doings to the Town in writing at its next annual Town Meeting.

Committee appointed: H. Clifford Gallagher, Horace B. Horne, Timothy W. Melley, James S. Russell, Norton Wigglesworth.

ART. 53. *Voted*, That the School Committee be instructed to make a demand upon the Leopold Morse Home for Infirm Hebrews and Orphanage and its trustees or managers for the extra school expense incurred by the Town for the tuition in its public schools of certain children between the ages of five and fifteen years, not theretofore resident therein, who are inmates of said institution, and act on anything relating thereto.

ART. 54. *Voted*, That the Town elect its Moderators for the term of one year, according to the provisions of Section 359 of Chapter 560 of the Acts of the year 1907.

ART. 55 and ART. 56. *Voted*, That articles 55 and 56 be considered in conjunction. *Voted*, That a committee of three citizens be appointed by the Moderator to consider the provisions of Chapters 598 and 624 of the Acts of 1910, relative to Town accounts, said committee to also investigate and report upon the feasibility of having a joint clerk for the various executive boards of the Town, and report thereon in writing at the next annual Town Meeting.

Committee appointed: Jesse B. Baxter, Winthrop L. Carpenter, Frederick A. Gaskins.

ART. 57. *Voted*, To indefinitely postpone.

Voted, That the number of Constables to be elected by the Town in accordance with Section 362 of Chapter 560 of the Acts of 1907 shall be fixed at four.

At 7 o'clock and 50 minutes P.M., *Voted*, To dissolve the meeting.

The foregoing meeting was opened at 6 o'clock A.M. by the Town Clerk, who proceeded to read the warrant; upon the conclusion of the reading of the third article it was moved that the further reading of the warrant be dispensed with; said motion being put was unanimously carried and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid the total number of ballots cast was 1,248: sixty of which were cast by women voters for School Committee.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Warrant Committee.

The following citizens were appointed by the Moderator of the foregoing meeting as a Warrant Committee for the ensuing year, in accordance with Chapter 2 of the Revised By-Laws, viz.:

Dr. Edward Reynolds, Jesse B. Baxter, Joseph B. Blanchard, Lincoln Bryant, Alfred J. Ellsworth, James S. Gallagher, Frederick A. Gaskins, Freeland D. Leslie, Hugh McCue, Francis T. Meagher, George A. Palmer, M. Vassar Pierce, Felix Rackemann, Murray Ruggles, Theodore T. Whitney, Jr.

SEPTEMBER MEETING.

Under New Primary Election Law.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton, on Tuesday, the twenty-sixth day of September next, at six o'clock in the evening, then and there to bring in their ballots to nominate candidates of the political parties for offices of Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, all of this Commonwealth; Councillor for the Second District; Senator for the First Norfolk District; Representative in the General Court for the Fourth Norfolk District; County Commissioner for the County of Norfolk, Clerk of Courts, Register of Deeds for the County of Norfolk; also to elect District Members of the State Committees, Members of Town Committees, Delegates to the State Conventions.

The polls may be closed at 9 o'clock P.M.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Milton, at least fourteen days before the date of said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton this twelfth of September, nineteen hundred and eleven.

MAURICE A. DUFFY,
PHILIP S. DALTON,
HENRY H. BARNES,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

MILTON, SEPTEMBER 26, 1911.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as therein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

At a primary meeting of the inhabitants of the Town of Milton, held according to a warrant of which the foregoing is a copy, upon Sept. 26, 1911, the following number of votes were given in for the several persons hereinafter named for the respective offices specified below, namely:

REPUBLICAN.

For Governor.

LOUIS A. FROTHINGHAM, of Boston, two hundred and fifty-four votes.

JOSEPH WALKER, of Brookline, forty-two votes.

Littlefield, Republicans. Martin L. Bannin, Joseph A. Rein, Jr., William A. Haley, William F. Walsh, Joseph A. Shea, George H. Partelow, William A. Murray, James J. Mahoney, Edward Gallagher, Joseph A. Mullin, Joseph H. Duffy, Democrats; all of the above-named Ballot Clerks and Tellers being sworn by the Town Clerk before entering on their duties.

At 6 o'clock and 15 minutes P.M., *Voted*, To dissolve the meeting.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Whole number of ballots cast, thirteen hundred sixty-four (1364).

Fourth Norfolk Representative District.

We, the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify:

That at an election duly held in said towns upon the seventh day of November, A.D. 1911, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For JOHN J. GALLAGHER, of Milton, eight hundred forty-four votes.

For ROGER WOLCOTT, of Milton, twelve hundred thirty-nine votes.

BLANKS, sixty-seven.

Given under our hands at Canton this seventeenth day of November, A.D. 1911.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

REPORT OF THE COMMITTEE ON PENSIONS.

To the Citizens of the Town of Milton:

The Committee on Pensions submitted a report to the annual Town Meeting held March 7, 1910, in which the following conclusions were stated:

“As the present statutes of the State which may be accepted by the Town, apply only to policemen, firemen and school teachers and not to all Town employees, as the statutes all are non-contributory and as none of them exhibit careful consideration for detail, and as the Legislature is about to take action upon the report of the State Commission which has made an exhaustive study of this subject for almost three years, and as we feel that the Town should have the benefit of this commission’s work if possible, your Committee deem it wise for the Town to postpone definite action upon accepting any pension law until another year, when the recommendations of the State Commission shall have been acted upon by the Legislature.

In conclusion your Committee would recommend that a committee of five be appointed by the Moderator at the March Meeting to continue the work of investigating the matter of pensions for Town employees and report at the next annual Town Meeting so that in the event of new legislation the committee will be able to present the details of the probable cost of operation, together with the bill for the Town’s acceptance if in their judgment it shall appear wise to do so.”

The same Committee having been reappointed to continue the work, now respectfully reports as follows:

The Legislature of 1910 passed an act approved by the Governor on June 14 (Chapter 619 of Acts of 1910) entitled:

“An Act to Authorize the Cities and Towns of the Commonwealth to Establish Retirement Systems for Their Employees.”

This act, generally speaking, embodied the bill proposed by the Commission on Old Age Pensions (a summary of which was contained in the Committee's report last year).

We have examined the act carefully in detail. Conferences have been held with Prof. F. Spencer Baldwin, the Secretary of the Commission on Old Age Pensions, as to the effect of some of the provisions of the act; a number of questions upon the same subject have been put in writing to the Insurance Commissioner of Massachusetts (who is charged with the general administration of the act); and the State Actuary has also been consulted.

From its own investigations and because of difficulties with the act reported by others (notably the Boston Finance Commission), the Committee has regretfully decided that the Retirement System Act has, in its present shape, so many obscurities and defects that it would be unwise for the Town to accept the law in its present condition.

A majority of the Committee are still opposed to the acceptance by the Town of any of the older acts for the reasons stated in its report of last year.

We believe that the Act of 1910 (C. 619) can be so amended, that it would be wise for the Town to accept it in an amended form.

Certain members of the Committee as individuals have therefore petitioned the Legislature of 1911 for amendments to the act, and it is hoped that amendments may be enacted this year which will make the act acceptable to a future Town Meeting.

The Retirement System Act, we believe, should be so amended as to provide in general as follows:

It will provide for a Retirement Association and a Board of Retirement. The Retirement Association will be composed of the employees of the Town. Membership in the association will be compulsory for all future employees, and voluntary for present employees. Future employees entering the service at age 55 will be ineligible. The Board of Retirement is to be made up of three members: first, the Town Treasurer, the second member elected by the Retirement Association, and the third member chosen by the other two.

The employees will contribute 3% of their wages. The Town will contribute a like amount.

The Town Treasurer will have charge and control of the funds of the association subject to the approval of the Board of Retirement and will invest them in accordance with the laws of the commonwealth relating to the investment of savings banks.

The expense of administration is to be borne by the Town. The contributions made by the employees will be for the creation of an "annuity" and the contributions of the Town for a "pension."

Retirement is to take place for old age, for long service, or for permanent disability.

The age of voluntary retirement will be fixed at 60, or an employee may be retired by the Board of Retirement at that age.

A period of fifteen years of continuous service will be required as a condition of retirement for age.

Compulsory retirement will be required at 70.

Retirement for long service may take place after thirty-five years of uninterrupted employment. Retirement for permanent disability may take place at any age or after any period of service.

The amount of the retirement allowance, including annuity and pension, will depend on the wages of the employee and the length of service.

Special provision is to be made for persons already in the employ of the Town when the law becomes operative.

Any employee of the Town who has already served fifteen years and reached the age of 60, who retires or is retired, will receive in addition to the regular amount to which he may be entitled under the pension and annuity features of the act, an extra amount paid by the Town equal to the amount of the annuity that he might have earned if the retirement system had been in operation when he entered the service.

Furthermore, employees who have reached the age of 60 when the system is established and also employees who have reached the age of 50 and become members of the association, may be retired with pensions for prior service without having completed the otherwise necessary service period of fifteen years.

Should a member of the association cease to be an employee of the Town for any cause other than death before becoming entitled to a pension, there will be refunded to him all the money that has been paid in by him with compound interest at 3%.

Should a member of the association die before becoming entitled to a pension, there will be paid to his legal representatives all the money that has been paid in by him with such compound interest as shall have been earned on his deposits.

Employees who have become members of the association will have the option of accepting their annuities in two forms according to the tables adopted by the Board of Retirement.

First.—A life annuity payable monthly.

Second.—A life annuity payable monthly with the provision that in the event of death of the annuitant before receiving payments equal to the sum at the date of his retirement of his deposits with interest, the difference shall be paid to his legal representatives. In no case will the total monthly payment to a member be at a less rate than \$200 per year.

In order to obtain an estimate of the probable cost of introducing the retirement system as set forth in Chapter 619, the Committee employed the State Actuary, and he prepared cards in blank to be filled out by the Town's employees, setting out data of their age, length of service, etc.

Owing to misunderstanding of the nature of the Committee's request, or for other reasons, the employees of the different departments (with one exception—that is, the schools) failed to fill out these cards.

The Committee lacking the desired information, at best could not expect to give any accurate estimate of the cost of putting the system in operation. Moreover, we found by examining the act as above stated that various uncertainties existed as to the scope of the act; we therefore considered it unwise for the Town to incur the expense of an actuarial estimate of the probable cost of applying the system.

The Committee realizes that arguments may be advanced for granting special relief in particular instances. The question now before the Town, however, is not whether the Town wishes to grant a few pensions to cover special cases, but whether the Town will enter upon a general system for pensioning its employees.

The inauguration of a general pension system involves a careful consideration of the needs of all the employees

of the Town, and not merely of a few. It involves a careful consideration of the expense not merely to the tax-payers of to-day, but to the tax-payers of the future.

A majority of the committee are still of opinion that none of the older non-contributory pension *laws which are for the benefit of particular classes of employees only*, should be adopted. We believe that the Retirement Act of 1910 is not yet in proper form for acceptance. We therefore earnestly recommend that upon this very serious and far-reaching subject the Town await further action on the part of the Legislature.

Respectfully submitted,

W. NEWTON HARLOW,
*MURRAY RUGGLES,
REGINALD M. JOHNSON,
*JOHN PIERCE,
REGINALD L. ROBBINS.

*Messrs. Ruggles and Pierce, Dissent.

DISSENTING STATEMENT OF MR. RUGGLES.

I desire to express my dissent from several statements made in the preceding report, especially in relation to the act passed last year with the proposed amendments and also in relation of non-contributory to contributory pensions.

After a careful consideration and from the result of the last year's attempt by the General Court to put an act on the statutes to provide for a system of contributory pensions, which was so complete a failure, I believe it would be very unwise for the Town to accept any such act, however amended, for at least five years, or until it has been thoroughly tried out in actual practice.

I also think it unwise and unjust to pension all employees under the same act, on account of the diversity of their duties and hours of their labor. This fact was appreciated by the General Court and provided for by acts passed

for the pensioning of special employees as firemen, policemen and school teachers. This fact was also realized by the special State Committee which had this whole subject matter under consideration when it said in its report that "It is true that much of the existing pension legislation for firemen, policemen and teachers is based on the non-contributory principle. There are, however, special features attaching to these occupations, that may perhaps, justify, or at least excuse, the payment of non-contributory pensions to employees of these classes. These occupations involve a degree of danger, devotion and sacrifice that does not attach to ordinary employment in the public service. In any event, whatever may be done in the future toward the extension of pension provisions for all classes of public employees should be on the contributory basis."

The fact is that the majority of supporters appearing in favor of the new bill last year before the Legislative Committee were officials of cities which had already adopted the pension acts for firemen and policemen. There is no doubt in my mind but that the Town, for its best interests, should accept at the annual Town Meeting this year Chapter 327 of the Acts of 1904, providing pensions for police and firemen. These two departments of necessity should be kept at their highest efficiency, which depends entirely upon the ability of its members to perform their duties when called upon to do so.

Candidates for these two departments are subject to civil service examinations, and if a certain standard is necessary to obtain an appointment, then when members fall below that standard they should necessarily be removed from service by being retired on pensions, as that is the only humane method and is being adopted by hundreds of private corporations and individuals, and is considered by them as a good business policy.

The members of these departments are not over paid and in fact they are under paid when the number of hours is taken into consideration that they devote to the service of the Town. The employees in other departments have two-thirds of their time to devote to their own private interests, while the firemen of necessity spend all their time on duty and the policemen while on actual duty only eight hours every night, are forbidden by police regulations, from either leaving Town without permission from the superintendent, or from engaging in any other occupation for remuneration.

As to the relative cost of operating a non-contributory system of pension, to that of a contributory system there would be materially very little difference; because if the employees were compelled to assign a certain percentage of their wages to support a contributory system they would at once demand and probably obtain a corresponding increase in wages.

Whereas your Committee is unanimous in the opinion that the Town employees should be pensioned in their years of superannuation, and only differ as to the system to be adopted, I would recommend that the Town adopt that system, which has been adopted by other cities and towns and which has proved satisfactory.

MURRAY RUGGLES.

Printing tax bills	25 00
Miscellaneous	60 00
Total	\$975 00

The Assessors gave the notice required by statutes requesting tax payers to bring in true lists of their polls, real and personal property.

Number of polls assessed, 2,071, a gain of 44.

There was a gain of personal estate of \$1,534,103.

There was a gain of real estate of which \$294,450 was on buildings and \$117,000 on land, making a total gain in valuation for the year of \$411,450 real, \$1,534,103 personal. Total gain, \$1,945,553.

Total number of horses, 697.

Total number of cows, 744.

Neat cattle other than cows, 4.

Number of swine assessed, 0.

Number of fowls assessed, 2,855.

Value of fowls assessed, \$2,284.

Number of dogs, 448 males, 75 females; total 523.

Number of dwelling houses, 1,528; gain of 64.

Number of acres of land assessed, 6,223.90.

Assessors' census, April 1:

East district, 2,565; loss of 106.

West district, 2,813; gain of 73

Central district, 2,509; gain of 43 } 116.

Total, 7,887.

Gain for the year, 10.

Number of male voters, 1,625; gain of 93.

Number of residents assessed on property, individuals, 1,208.

Number of non-residents assessed on property, individuals, 562.

All other resident firms, corporations, associations, institutions, trustees, estates, 413.

Non-resident firms, corporations, trustees, 93.

Residents on property, 1,621; non-residents, 655.

Poll tax only, 1,364.

Total number assessed, 3,640.

Value of buildings excluding land, \$6,662,650.

Value of land excluding buildings, \$5,962,260.

Total value real estate, \$12,624,910.

Gain for the year on buildings, \$294,450.

Gain for the year on land, \$177,000.

Total gain on real estate, \$411,450.

Total gain on personal estate, \$1,543,103.

Total gain in valuation, \$1,954,553.

The town received in corporation and bank taxes, in 1910, \$96,776.54; a gain over 1909 of \$3,520.48.

TAXES ASSESSED IN THE TOWN OF MILTON FOR THE YEAR 1911.

Valuation of personal estate.....	\$16,019,293	
Valuation of real estate.....	12,624,910	
Total valuation.....		\$28,644,203

Number of polls, 2,071; gain of 44.

Rate of taxation, \$10.80 on \$1,000.

Town tax.....	\$197,639 69	
State tax.....	38,610 00	
County tax.....	17,907 22	
South Metropolitan Sewer.....	21,757 47	
Metropolitan Park and repairs on State highways.....	18,214 59	
Charles River Assessment.....	7,179 66	
Overlay.....	8,048 76	
Total.....		\$309,357 39
Tax on \$16,019,293 personal estate.....	\$173,008 36	
Tax on \$12,624,910 real estate.....	136,349 03	
Total.....		\$309,357 39
2,071 polls at \$2.00.....	\$4,142 00	
Old Colony St. Ry. Co., excise tax.....	1,037 12	
Bay State St. Ry. Co., excise tax.....	1,239 85	
Blue Hill St. Ry. Co., excise tax.....	652 05	
Additional tax.....	3,868 75	
Additional polls, 39.....	78 00	
Total.....		\$11,017 77
Total tax levied for the year.....		\$320,375 16
Resident bank tax included in per- sonal estate.....	\$ 814 32	
Non-resident bank tax.....	1,345 68	
Total.....		\$2,160 00
Town sewer tax assessed Sept. 1, 1911...	\$3,877 05	
Gypsy moth tax assessed Jan. 1, 1910, to Jan. 1, 1911, assessed April 1, 1911....	3,777 05	
Total.....		\$3,789 55

Respectfully submitted,

GEORGE W. NICKERSON,

WM. W. CHURCHILL,

HERBERT B. TUCKER,

Assessors of Milton.

REPORT OF TRUSTEES OF CEMETERY.

To the Citizens of Milton:

The Trustees of the Cemetery submit their report for the year 1911 as follows:

The Board organized for the year with Samuel Gannett as Chairman and J. Frank Pope as Secretary and Treasurer. Thomas W. Pond was appointed Superintendent.

We have made 118 interments, 66 of which were from out of town; 24 lots were taken by citizens of the Town; 4 single graves were sold; 2 charitable graves taken; 12 lots taken under perpetual care; 37 lots laid out, 13 of them finished; 22 graves planted with myrtle, 20 with evergreen; 18 foundations for monuments, 26 for headstones and markers; 2 brick vaults built; 2 slate graves put in; 87 cords of wood and 94 cedar posts sold; 11 trees taken out by the roots; 13 lots regraded and reseeded; 230 feet 8-inch tile pipe laid to take the water from the Cemetery along Centre Street.

Mr. Kidder was given charge of the trees, which he kindly consented to take. There are still moths on the grounds, walls and trees, notwithstanding Mr. Kidder's men, under his directions, did a good deal of work, and our men assisted.

We respectfully ask the Town for two thousand dollars (\$2,000).

SAMUEL GANNETT,
THOMAS K. CUMMINS,
C. MINOT FIELD,
J. FRANK POPE,
HENRY E. SHELDON,
Trustees of Cemetery.
THOMAS W. POND,
Supt. of Cemetery.

ENGINEERS' REPORT.

MILTON, MASS., January 19, 1912.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Board of Engineers herewith presents its report for the year ending December 31, 1911.

The year 1911 has been one of exceptional activity in this department. There has been a total of 240 alarms, of which 94 were bell alarms and of these, 4 were false and 34 were calls to Boston. Boston has responded to 10 alarms in Milton, and has rendered most timely assistance especially in the Strangman factory fire which occurred August 14, and in the Winslow stable fire which occurred October 22. At each of these fires Boston furnished three engine and hose companies and two hook and ladder companies.

The value of the property at risk at all fires was \$236,195. The total loss by fire was \$85, 552.32 on which \$68,804.32 in insurance was paid.

The fire fighting equipment of the Town is in good condition. Hose 1 has been overhauled and painted during the year.

The shed in rear of Combination No. 1 has been repaired, resingled and repainted. Hose No. 2 house has been painted outside and the Central Station and Combination House have been painted outside where necessary and some masonry work has been done.

It has been necessary to buy three new horses during the year and good homes have been found for the old horses which were unfitted for service.

One new fire alarm box numbered 121 has been installed at the corner of Brook Road and Thacher Street, special

appropriation for which was made at the last Town Meeting.

Early in the year Hose No. 3 was moved to the south section of the Town. With the special appropriation of \$500 made at last Town Meeting a hose house has been erected on land leased to the Town and belonging to the heirs of Charles L. Copeland on Hillside Street. Hose No. 3 has been more completely equipped with fire-fighting apparatus and tappers have been placed in several of the houses in the district.

J. Harry Holmes was appointed an engineer on June 16 last.

There have been no changes in the permanent force of the department during the year but several changes in the call force on account of resignations and removals from town.

The Pope Hartford automobile used by the Chief has continued to render excellent service and the cost of upkeep has not been high.

The practicability of motor-driven fire apparatus has been clearly demonstrated. Their high rate of speed enables them to arrive promptly at a fire and render most valuable assistance at the early stages. While they are being installed more and more in the cities it is evident that their usefulness is greatest in places where distances are great. The time has not arrived to recommend the installation of motor-driven apparatus in Milton but we believe the time approaches when it will be policy to purchase motor-driven apparatus to be located at the Central Station.

The department has condemned many lengths of hose during the year as unfit for further service, and we recommend a special appropriation of \$1,350 for the purchase of new hose.

The permanent men in the department now receive one

day off in ten and have applied to the engineers for more days off. After careful consideration the engineers have decided that this request is a reasonable one and are inclined to grant the men one day off in eight. It will be necessary to increase the permanent force to accomplish this result by one man whose salary would be \$1,100 per annum.

For the care and maintenance of the Fire Department for the ensuing year we recommend an appropriation of \$25,740.

GEO. F. CHOATE,
ALBERT R. WHITTIER, JR.,
J. HARRY HOLMES,
Board of Engineers.

REPORT OF THE BOARD OF HEALTH.

The Board of Health of the Town of Milton has the honor to present to the town its report for the year ending December 31, 1911.

The following appointments were made: Henry B. Martin, Agent for Signing Burial Permits; L. E. Young, Inspector of Plumbing; B. F. Murray, Deputy Inspector of Plumbing; A. W. Draper, Agent for the Board of Health; C. H. Sanford, Caretaker of hospital; Wallace C. Tucker, Inspector of Milk and Inspector of Slaughtering; F. T. Hanna was given the contract to collect ashes and garbage. S. A. Meagher was given a permit to carry on the business of rendering oil, tallow, etc.; Peter McIntyre, to slaughter cattle, sheep and swine for food; John R. Lawrence, to empty vaults and cesspools; Quincy Tallow Co., to collect grease; James F. Morse Co., to collect grease.

The number of cases of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1911	1910	1909
Diphtheria	13	11	15
Scarlet Fever	19	18	27
Measles	33	50	61
Typhoid Fever	5	2	4
Tuberculosis	10	18	20
Chicken Pox	24	13	34
Whooping Cough	31	8	10
Cerebro-spinal Meningitis	0	0	0
Mumps	0	2	1
Erysipelas	0	1	0
Cancer	1	1	2
Acute Anterior Polio-Myelitis	0	1	3

The whole number of deaths recorded in this town in 1911 is 100 (males 43, females 57,) giving a death rate of 12.67- per thousand inhabitants.

	1909	1910	1911
Number of deaths in Milton	95	114	100
Rate per thousand	12.21	14.25	12.67

Sixty-one permits have been issued for sewer connections, in each case the Inspector of Plumbing having made the necessary examinations.

John R. Lawrence has cleaned out one hundred thirty cesspools and fifty-five vaults; three hundred fifty loads in all.

The Inspector of Slaughtering has inspected and stamped for food seventy-four hogs and nineteen sheep.

The Inspector of Milk has issued fifty-two licenses to sell milk in Milton, to thirty-nine residents and thirteen non-residents.

F. T. Hanna has collected one hundred three thousand barrels of ashes and fifty-six cords of garbage.

The garbage has not been collected as satisfactorily as could be desired; although there is a great improvement as shown by the decreased number of complaints.

We respectfully request the public to comply with the regulations concerning the removal of the ashes and garbage, which would render the service more efficient.

A copy of the regulations can be obtained from the collector.

MILK.

To the Producer: See that your cows are in good condition and the barns kept clean. The latter should be whitewashed once or twice a year. Be careful about milking. Keep all utensils in a clean place away from

the vicinity of the cows, and cool the milk as soon as milked in uncovered cans to 50°.

To the Milkman: I insist upon having clean, properly cooled milk.

To the Housewife: Do your part toward having good clean milk. Do not blame everything to the milkman and producer. Have a box or other proper place in which to set the jars when delivered at your door. Do not set them where exposed to the elements and to cats and dogs or thieves. For the sake of health and to lessen the cost of living, wash the jars and set them out every day. Do not throw the jars away. To-day men are digging jars out of the dumps by the thousands. One company recently dug out 10,000 in one week.

To the Public: The Board has appointed an Inspector of Milk. See where your milk comes from and demand that you get a good clean article.

PINE TREE BROOK.

At this time we would call the attention of the Town to the condition of Pine Tree Brook.

Upon investigation we find it to be filthy and unsanitary, a breeding place for malaria, flies and mosquitoes.

Flowing through a settled and growing residential district, and close to the rear grounds of the new Vose School, it is a menace to the health of the neighborhood under present conditions, but, with proper attention, the brook and its immediate surroundings could be made beautiful and healthful.

We therefore recommend that some action be taken immediately for the cleansing and purification of Pine Tree Brook.

FLIES AND MOSQUITOES.

In order to lessen the nuisance of flies and mosquitoes,

three useful articles quite generally neglected—the rake, the shovel and the wheelbarrow—should often be used around dwellings.

Tin cans and other things that are likely to catch and hold rain water, as well as all rubbish and decaying matter should be disposed of.

See that your drainage is all right.

SEWER CONNECTION.

As time goes by we find it increasingly difficult to secure safe dumping places for the contents of cesspools and vaults and such work grows more expensive. Hence, wherever possible, all householders should connect with the sewer.

TUBERCULOSIS.

During the past year the Board has carried on the regular routine work in regard to this disease. Suitable cases for sanitarium treatment were sent to one of the State Sanitaria at an expense of four dollars a week, the balance of the cost being paid by the State appropriation, with an extra expense to us for clothing for the patient, and support of some of the families in their homes.

There may be some change in the method of caring for the patients caused by the following law passed in 1911 relative to the maintenance of isolation hospitals by cities and towns, Acts 1911, Chapter 613, Section 1.

Section 1. Chapter 75 of the Revised Laws is hereby amended by striking out Section 35 and inserting in place thereof the following:—Section 35. Each city and town shall establish and constantly maintain within its limits one or more isolation hospitals for the reception of persons having diseases dangerous to the public health as defined by the State Board of Health, including a tuberculosis hospital or tuberculosis wards. Plans for the construction of such hospitals shall be approved by the

State Board of Health, and said hospitals shall be inspected by the State Board of Health or by its accredited agent, at least twice in every year. But if, in the opinion of the State Board of Health, two or more adjoining towns or a city and contiguous towns can advantageously establish and maintain such hospitals in common, the authorities of said towns or of such cities and contiguous towns may enter into such agreements as may be necessary for the establishment and maintenance of the same. Any city or town which upon the request of the State Board of Health refuses or neglects to comply with the provisions of this section shall forfeit not less than five hundred dollars for every such refusal or neglect.

Section 2. This act shall take effect upon its passage.

The following opinion by the Attorney-General came into our possession: "According to an opinion by the Attorney-General, cities and towns are not entitled to State subsidy for the care of tuberculous patients unless they maintain hospitals expressly for that purpose." The question was raised by Arthur Drinkwater, who has received the following communication from the Attorney-General:

"Arthur Drinkwater, Esq., Trustees of Hospitals for Consumptives, 3 Joy Street, Boston.

"DEAR SIR:—You have submitted to me three inquiries relative to the construction of St. 1911, c. 597, entitled 'An act to encourage and promote the building and use of tuberculosis hospitals in cities and towns.' This statute, in Section 1, provides that—

"'Every city or town which establishes and maintains a tuberculosis hospital shall be entitled to receive from the Commonwealth a subsidy of five dollars per week for each patient who is unable to pay for his support, or whose kindred bound by law to maintain him are unable to pay for the same, but the city or town shall not become

entitled to this subsidy unless, upon examination authorized by the trustees of hospitals for consumptives. the sputum of such patients be found to contain bacilli of tuberculosis, and unless the hospital be subject to the inspection of, and be approved by, said trustees.'

"Your inquiries are substantially whether or not a city or town is entitled to the subsidy above provided for; (1) if it maintains in a private tuberculosis hospital a tuberculosis ward or bed or beds; (2) if it maintains a tuberculosis ward in a general city or town hospital, or a bed or beds for tuberculous patients in such hospitals; and (3) if it maintains a tuberculosis ward in a private general hospital or a bed or beds for tuberculous patients in such hospital.

"I am of opinion that all three of these inquiries should be answered in the negative. The purpose of the statute is obviously as stated in the title, 'to encourage and promote the building and use of tuberculosis hospitals'; or, in other words, to furnish an inducement to cities and towns to erect and maintain hospitals for persons afflicted with tuberculosis where such patients may be cared for and treated. It follows, therefore, that cities and towns which maintain wards or beds in private hospitals or in general city hospitals are not entitled to the subsidy provided for in the section above quoted.

"Very truly yours,

"JAMES M. SWIFT,

"Attorney-General."

We have not as yet received an order or request from the State Board of Health to build hospitals.

Respectfully submitted,

J. S. LINCOLN,

A. W. DRAPER,

L. R. BURNETT.

REPORT OF THE INSPECTOR OF ANIMALS.

MILTON, MASS., January 1, 1912.

To the Honorable Board of Selectmen:

GENTLEMEN:—I respectfully submit as Inspector of Animals the following report for the year ending December 31, 1911.

The inspection this year was made early in the year instead of in the fall as heretofore.

I inspected one hundred four (104) stables, nearly all of which I found in splendid sanitary condition; water supply, light, ventilation, drainage, etc., meeting all requirements.

I gave a physical examination to seven hundred twenty (720) cows, ten (10) bulls, one hundred fifteen (115) swine, and one hundred six (106) sheep, which I found free from any symptom of tuberculosis or any other contagious disease. There have been no cases of glanders or rabies in the Town this year, and no suspicious cases of tuberculosis quarantined. One cow only has been in quarantine, and this simply on account of the fact that she came from outside the State without the necessary certificate.

Respectfully submitted,

JAMES SPENCER,
Inspector.

REPORT OF THE INSPECTOR OF BUILDINGS.

MILTON, MASS., January 1, 1912.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my thirteenth annual report for the year ending December 31, 1911.

There have been one hundred thirty-four (134) applications made, and permits issued, for alterations, additions, repairs and new buildings. I have made five hundred twenty-seven (527) inspections of buildings under construction throughout the Town.

There have been twenty-five (25) buildings examined for permits to move and seventeen (17) permits issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT.

Months.	Permits for Wooden Buildings.	Permits for Stone, Cement and Brick Buildings.	Valuation by Application.
January	6	0	\$7,775 00
February	3	0	1,800 00
March	12	1	21,500 00
April	14	1	31,700 00
May	12	1	102,650 00
June	13	0	60,500 00
July	10	3	50,425 00
August	13	6	40,265 00
September	4	0	10,000 00

December	11	1	71,625 00
	<hr/> 117	<hr/> 17	<hr/> \$442,740 00

Making the valuation, as per applications, four hundred forty-two thousand seven hundred forty dollars (\$442,740).

Office hours of this department 7.30 to 9.00 P.M., Tuesdays and Thursdays.

Respectfully submitted,

G. W. BURT,

Inspector of Buildings.

REPORT OF THE INSPECTOR OF MILK.

MILTON, MASS., January 1, 1912.

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit my report as Inspector of Milk for nine months ending December 31, 1911.

There have been 52 licenses issued: 10 to stores, 42 to wagons. Of this number 39 were residents of Milton; 13 non-residents.

I have taken in all, at various times, 149 samples of milk and cream from wagons and from stores. These samples have been tested at the Harvard Dental School, "Department of Chemistry," and in the majority of cases have been found to be up to the standard required by the State laws. Those cases not up to standard have been investigated thoroughly and subsequent analysis made.

I have inspected barns where milk is produced in accordance with the State laws, and made proper reports of the same.

The co-operation of the citizens of the Town is urgently desired, and if there is any cause for complaint as to quality of milk, I shall be glad to have samples taken and analysed.

Respectfully submitted,

WALLACE C. TUCKER,
Inspector of Milk.

REPORT OF THE INSPECTOR OF PLUMBING.

MILTON, MASS., January 1, 1912.

To the Honorable Board of Health:

GENTLEMEN:—I have the honor to present the following report of the Department of Inspection of Plumbing for the year ending December 31, 1911.

One hundred ninety-two (192) permits to perform plumbing work have been issued, on applications, from this office, an increase of three (3) over the year 1910. The approximate valuation of this work is fifty-one thousand one hundred fifty-three dollars (\$51,153.00), an increase of nearly nine thousand dollars (\$9,000.00) over the year 1910.

Sixty-one (61) buildings have been examined, as ordered by you, before being connected with the Town sewers, and improvements, where needed, ordered and supervised.

Thanking you for your continued confidence and help, this report is respectfully submitted.

LORENZO E. YOUNG,
Inspector of Plumbing.

REPORT OF THE INSPECTOR OF SLAUGHTERING.

MILTON, MASS., January 1, 1912.

To the Honorable Board of Health:

GENTLEMEN:—My report as Inspector of Slaughtering is as follows: Since May 1, 1911, I have inspected and stamped at McIntyre's Slaughter House 74 hogs, 4 lambs, 1 sheep, and at Cunningham Park 12 lambs and 2 sheep; making in all 93 carcasses.

Respectfully,

WALLACE C. TUCKER,
Inspector.

REPORT OF THE INSPECTOR OF WIRES.

MILTON, MASS., January 9, 1912.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1911.

This department has supervision of the Fire Alarm and Police Signal Systems, also inspection of all buildings equipped with electric light service and all poles and wires on the Town streets.

INTERIOR WIRING.

The interior wiring of 135 buildings for installation of light and power was inspected, requiring 303 visits.

118 permits were granted the Edison Electric Illuminating Company to install the service.

OVERHEAD CONSTRUCTION.

The overhead lines have been greatly improved the past year, the Telephone Company having replaced 150 old poles with new ones. The Edison Company have done considerable work the past year; defective poles have been replaced with new ones; 4,352 feet of cable for Town wires was placed on Canton Avenue from Highland Street to the Parkway and the old iron wire taken down; 10,000 feet underground four-conductor cable was placed in the duct on Adams Street from the junction of Randolph Avenue and Adams Street to East Milton, and all the old wire removed.

For the necessary repairs and the placing of 6,500 feet of wires underground I recommend an appropriation of \$1,500.

Respectfully submitted,

GEO. F. CHOATE,

Inspector of Wires.

REPORT OF THE PARK COMMISSIONERS.

To the Citizens of Milton:

The gravel pit on the East Milton Playground has been kept at the disposal of the Superintendent of Streets, and he has taken out 526 double loads during the year for use on the highways. This has yielded us a small sum. No special work has been done on these grounds, none being necessary.

Brook Road Playground has had considerable use for games. During the work of widening the street at this point for the laying of a second track, we were fortunate in getting a quantity of filling dumped in the low part of the grounds without expense to the town, and this has been roughly graded. Some rampant growth of birches and cherries has been removed. The projected row of trees is still unplanted, as it seemed wise to delay until the widening was finished. Planting is contemplated in the spring.

Some of the work on the trees at Hollingsworth Field has been done, and what remains to be attended to is inconsiderable, unless it should prove necessary to plant a new row of elms at the western end of the field where several of the trees have suffered from the drought and probably from changed conditions brought about by the trunk sewer. There seem to have been two rows of elms planted at some time, and unless the weak trees should rally soon it will be desirable to try to so place new trees as to make a line more continuous and somewhat further back from Brush Hill Road. The seats placed here a few years since have been roughly used and most of them broken up and carried away.

Dollar Lane Playground has had nothing done to it

except that a little more has been added to the dump. As it does not require any more rough filling, and especially as the dump proved a nuisance owing to blowing of papers, dumping has been stopped here. There seems to be no demand as yet for a playground at this point, and so it is not intended to do anything more for the present. Before long it will be in order to grade the Blue Hill Avenue side of the grounds. We hope that it may be possible to get some good gravelly material to surface this over within reasonable hauling distance.

The appropriation for the improvement of school lots has been practically all expended on the north side of the Tucker School lot. This proved a rather expensive piece of work, as the filling and grading at this point had been mostly done with ashes which it was necessary to replace with good loam. This particular spot had been planted for some time, but the shrubs had never done well. Our digging explained why they had not. New shrubs will be planted next year.

We ask for the usual appropriations for the coming year, believing that they will be sufficient for keeping in order the grounds in our care. General appropriation, \$100; school lots, \$100.

Respectfully submitted,

NATHANIEL T. KIDDER,

HORATIO A. LAMB,

CHARLES E. ROGERSON,

Park Commissioners of the Town of Milton.

POLICE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1911.

Stray animals found	8
Stray teams put up	5
Street obstructions removed	15
Suicides reported	1
Water running to waste reported	6

STOLEN PROPERTY.

Amount reported stolen	\$740 000
Amount recovered	600 00

CRIME.

During the year three houses, temporarily unoccupied, and two schoolhouses have been entered. The most of the property stolen has been recovered.

With the above exceptions, general good order has prevailed in the Town.

MISCELLANEOUS.

The discipline of the force has in the main been good.

The runabout automobile has been in almost constant use and has been run about eleven thousand miles: its utility has been demonstrated in many ways.

I would recommend that your Board consider the advisability of the purchase of a combination automobile ambulance and patrol wagon. There have been numerous calls for an ambulance and the best we could give was an undertaker's wagon, and in case of sick and disabled persons when ordered to be taken to a hospital by a doctor, the time saved would justify the cost by the possible saving of life and extra protection given the Town.

CONCLUSION.

To your Honorable Board I extend thanks for the hearty support accorded me in all matters pertaining to the work of this department.

And all others who have in any way assisted the department in upholding the good name and reputation of the Town.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR.

To the Citizens of the Town of Milton:

The Overseers of the Poor of the Town of Milton have the honor to present their report for the year 1911.

The Thursday following the Town Meeting the Board proceeded to organize, electing Arthur H. Tucker, Chairman, and Parker B. Field, Secretary. Mr. and Mrs. Calvin H. Sanford were reappointed as Superintendent and Matron of the Town Farm, and Albert Rounseville was reappointed as Agent of the Board. Malbon G. Richardson's term of office expired in March, 1911, and as he is no longer a citizen of the Town of Milton, Walter D. Brooks was elected to fill the vacancy for a term of three years.

TOWN FARM.

It was found that the floors of the halls and rooms of the inmates' part of the main building were in very poor condition. The Board therefore had composition floors laid throughout this section of the house and has found them very satisfactory. They have been constructed on the sanitary principles of a hospital. The angle where the floors and walls meet has been eliminated by extending the composition in a concave curve some six inches up the wall. As this construction is water tight, and as there are no thresholds, this whole department can be thoroughly washed out with soap and water as often as necessary.

The Board is gratified with the efficient care that the Superintendent and Matron have taken of the inmates, as well as of the house and grounds of the Town Farm for the past year.

TOWN AID.

There has been confusion in the minds of some as to just where aid from the Town should begin and end. The Board as distributors of the appropriations which it receives from the funds of the taxpayers of the Town has legal authority to provide the necessaries of life only for those who are in needy circumstances. The Board intends, as much as possible, to encourage those who are destitute to become self-supporting.

Many times when circumstances warrant it, the endeavor is made to procure aid from private sources for those in distress, that they may not become wards of the Town, believing that especially where children are concerned the influence is harmful to them. There is a wide difference between public and private aid, for under the statutes of the commonwealth, if a person receives any amount, however small, from the Board of Overseers of the Poor, he becomes pauperised thereby, whereas if he receives assistance from private sources his legal standing is unchanged.

The members of the Board feel it is their duty to encourage those who receive aid to become self-supporting, and would much prefer that those who need only temporary aid should be helped from private sources. They will gladly give information to any who may wish to privately help those in need. The Board will welcome any inquiries and will receive applications for aid or complaints at any time, or at its regular meeting at the Town Hall at 7.30 P.M. the Thursday after the first Wednesday of each month.

The Board recommends an appropriation by the Town for the ensuing year of \$6,000 together with the sums received from the sales at the Town Farm and all reimbursements.

HORACE N. PLUMMER,
WALTER D. BROOKS.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY

To the Citizens of Milton:

We have the honor to present to the Town, as in recent years, the annual report of the Public Library, chiefly through the admirable report of the Librarian to the Trustees, which is printed herewith.

Miss Forrest well says that the days of the expansion of the Library through the establishment of new branches and deposit stations has reached its limit, and the Library can now devote itself to the improvement of its service and to the selection and circulation of books. This has been the aim of the Trustees and the Librarian during the year that is past.

Special attention is invited to what Miss Forrest says in regard to the purchase and circulation of novels. The demand for fiction is always greater than any library can meet and the problem is to gratify a legitimate demand for this kind of reading without sacrificing books of permanent value and more serious import. The Trustees feel that they have been reasonably successful in meeting the demand for fiction and yet have spent for novels but one-sixth of the total expenditure for books. They have encouraged the reading of more serious literature and have kept the circulation of fiction down to sixty-four per cent.

Milton has the distinction of having a larger percentage of the inhabitants of the Town using the Library than is the case in sixteen other cities and towns with which Milton can be justly compared.

There is a fluctuation in the use that is made of the Library from year to year, and in some departments

there has been a falling off, due to local conditions, during the past year, but on the whole there is a steady gain in the serious purpose of the Library and in the more thorough service that the Library is rendering the Town.

The Trustees, the Library and the Town have all suffered a great loss in the death of Mr. Joseph C. Whitney who had long been one of the Trustees of the Library. From the first and until the end, Mr. Whitney was deeply and constantly interested in the Library and rarely missed a meeting of the Trustees. He was progressive, yet wisely conservative, a genial companion on the Board, efficient and conscientious. His presence and counsel will be greatly missed.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman,*

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1912.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1911.

There comes a time in the history of every Public Library when the extension of its system has reached its normal limit. Such a point has now been reached in Milton, and we are no longer concerned with establishing new branches or deposit stations, or in reaching out for new fields of service. The work of the Library must now be *intensive* rather than *extensive*, and the important thing is to give greater attention to the selection and use of books, to strengthening the staff, and to the all around development of the Library.

Though of first importance, a wise selection of books is exceedingly difficult, because there must always be kept in mind a suitable proportion of expenditure. At each meeting of the Book Committee, held once a month, from 30 to 50 books (not fiction), are considered. Among the notable purchases for the year should be mentioned, Tyas Cook's Life of Ruskin, Downes, Life of Winslow Homer, Ferrari, *Il ferro nell'arte Italiana*, Hind, Short history of engraving and etching, Pugin, Gothic ornaments selected from various ancient buildings, Shaw, Examples of ornamental metal work, Stobart, The glory that was Greece, Twopeny, English metal work, Wyatt, Specimens of ornamental art workmanship. In the purchase of art books, the Library is greatly indebted to Mr. Morris Carter of the Boston Museum of Fine Arts, who has given valuable advice.

The greatest call in any Library is for fiction, and it is not only increasingly difficult, but almost impossible to keep pace with the demand. In the face of the hundreds of new novels thrown onto the market each year it is no small task to choose those which are necessary and suitable for purchase, and at the same time to keep within bounds the total expenditure for fiction. Out of the 135 novels considered, only 92 have been selected for purchase, at a cost of \$122.34, or about one-sixth the whole expenditure for books. This expenditure includes duplicate copies.

The total additions for the year have been 1,063, distributed among the various classes as follows:—

		Adult	Juvenile
General works	70	70	
Philosophy	10	10	
Religion	40	40	
Sociology	124	113	11
Philology	4	4	
Natural science	29	21	8
Useful arts	71	67	4
Fine arts	92	81	11
Literature	203	196	7
History	57	55	2
Travel	59	45	14
Biography	56	52	4
Fiction	248	173	75
Total	1,063	927	136

Next to fiction and periodicals, the largest circulation of adult books in any one class has been literature, followed by fine arts, industrial arts, biography, history, sociology (including education), natural science, religion, philosophy, and philology.

The circulation of children's books has varied somewhat from this order, fiction being followed by primers, fairy

tales, legends, periodicals, literature, history, travel, natural science, games and sports, industrial arts, biography, mythology and Bible stories.

The total circulation for the whole Library has been 61,157, against 61,919 for 1910, a loss of 762. The circulation per capita has been 7.7; the percentage of fiction 64.

A comparison of library statistics in 16 cities and towns including Milton, was recently made, and it was found that the average circulation per capita was 3.9. The per capita circulation in Milton has varied during the past eight years from 7.7 to 9.3, which shows an uncommonly large use of its Library.

Milton also has a large percentage of card holders. Out of a population of 7,924, including children of all ages, 3,203 or 40 per cent are holders of cards. Moreover these figures represent *live* cards, as registrations are being corrected constantly, and if for any reason one person's registration becomes void, that number is given to some one else, and is not kept on file for two years waiting for re-registration as was formerly the case. This method insures as nearly accurate statistics as it is possible to get.

The evaluation and proper treatment of pamphlet material is one of the most puzzling questions with which a library has to deal. A system of simple indexing by subject, and in the case of more important pamphlets, by author and subject, seems to be solving the problem, and is making available material which would otherwise be lost. For example:—the Farmer's Bulletin, published by the United States Department of Agriculture is invaluable, as it contains the latest and most authoritative word on so many agricultural subjects. By indexing all the bulletins on one main card under the general heading United States. Department of Agriculture. Farmer's Bulletin, each Bulletin can in turn be entered by its

number, author, and subject, so that it is easy to tell at any time just what Bulletins the Library has received, or to get at any special author's work on a given subject. A second card, under the subject, answers any question from the subject side, and the two cards together tell the whole story. For pamphlets of less importance from the author side, one card only is filed under the subject. That such material is worth keeping is shown by the fact that during the year 175 pamphlets have been circulated.

The requests which are constantly coming to the reference assistant, both in number and in kind, show that the Library is not only standing for the cultural side, but is meeting the practical needs of the people. The use of books on industrial arts is on the increase, and the call for books on social science has been constant. More and more, at the requests of teachers, pupils from the various schools are making the Library their work shop, and are learning to use the periodical files, reference books, and statistical material.

The work of the Children's Room has developed encouragingly. Although the attendance has dropped from 10,879 in 1910 to 8,451, the circulation has increased from 10,088 in 1910 to 10,276 in 1911. The number of books sent by request to the schools has been 2,877, an increase of 856 over 1910. Of especial interest in connection with the school work has been the use of mounted pictures. From an available collection of 1,300, 1,150 have been circulated.

As an experiment, books suitable for Christmas gifts to children were shown one day at the East Milton Branch and another day at Mattapan. Although only 19 persons responded to the invitation to look over these books, those few were enthusiastic and grateful for the privilege.

Another experiment has been made by Miss Allen in her reading hours, at which she gathered together from

five to ten children to whom she read aloud. If such reading hours continue to be well attended, it will be the means of guiding the reading of children who have no such guidance at home.

The problems of the Mattapan Branch are not yet fully solved. The combination of library and club house under one roof is not an ideal working scheme, because the uses of the two departments must necessarily be so different. With any normal use of the club rooms, the readers below are somewhat disturbed.

Mrs. Spofford, who took charge of the Branch July 31, has done excellent work and has already succeeded in increasing the use of the Branch by adult readers. For the five months since August 1, the total increase in adult attendance has been 685, and in adult circulation 812; the increase in the attendance of children has been 263, and in the circulation of children's books 649. The total attendance at the Branch for the year has been 16,176; the total circulation 11,671.

There has been a decrease in the use of the East Milton Branch, the attendance having dropped from 16,817 in 1910, to 15,636 in 1911, and the circulation from 16,758 in 1910 to 15,617 in 1911. Miss Babcock accounts for this in part by the fact that the Branch is now closed Wednesday evenings.

Renovations in the building have changed the position of the stairway, so that it is now farther away from the entrance to the Branch. Extra lights have been placed in the hall, and an added window improves the ventilation.

The work of Russell Reading Room will always remain unique, inasmuch as it affects only a small group of people and can therefore change but little from year to year. But the personal influence of Miss Kennedy is more far reaching than any figures can show. The use of the room during the last six months has been greater than in the

corresponding months of 1910, and Miss Kennedy in her report says that there are few families in that neighborhood who do not, at one time or another, visit the Reading Room.

The shop station which was opened June 20, 1905, at the barber shop of Timothy Melley in the village, was discontinued June 6. Books are still sent once a month to the Convalescent Home, to the Town Farm, and to the Public Schools.

The accumulation and non-payment of fines had become so vexing a question that stricter rules were imperative. Accordingly, on May 5, the following rule was adopted:—"All fines on overdue books are payable within 30 days after such fines become due. Unless accounts are settled within that time, names will be posted at the Library for non-payment, and no further books will be issued until payment is made." In a few cases this rule caused annoyance and misunderstanding, but on the whole it has worked admirably, and is already putting an end to the indefinite running up of fines. Few people realize the amount of clerical detail needed to keep accurate accounts of overdue books and corresponding fines. During the past year, 4,130 fines were paid, amounting to \$369.07.

To avoid accumulation of dead books, a regular system of withdrawals is carried on. During the past year 236 volumes of fiction no longer used, and 21 volumes of books on religious subjects have been discarded. These added to 181 miscellaneous withdrawals make a total of 438. Discarded books have been sent to the Boston Trade School for Girls, (30 volumes), to the Canton Public Library, (1 volume), to the Dean Library Association, Medway, (207 volumes including periodicals), to the Monomoy Life Saving Station, (111 volumes and miscellaneous periodicals), to the Nauset Life Saving

Station, (48 volumes and miscellaneous periodicals), to the General Theological Library, Boston, (21 volumes). Three sacks of government documents have also been returned to the Superintendent of Documents at Washington.

From their connection with varied town affairs, the meetings held at the Library during the year make an interesting showing. The complete record follows.

	Number of Meetings	Attendance
Congregational Church		
Mission Study Class	12	42
Thacher Brotherhood—Sunday meeting . . .	24	305
Thacher Brotherhood—Monthly social meeting .	7	65

Meeting called by Mrs. Harrison Apthorp to consider the question of playgrounds	1	10
Total	97	940

The notable gifts for the year have been:—from Professor A. Lawrence Rotch, a copy of *Étude de l'atmosphère marine par sondages aériens*, by Professor Rotch and M. Teisserenc de Bort; from Mrs. William H. Snyder, a photograph of Isaac Sanderson, and two diplomas given to him in 1830 for excellence of paper made from beach grass, a sampler worker by Isaac Sanderson's sister Susannah Sanderson in memory of her father who was drowned in 1786, a silver medal received by Susannah Sanderson for her work on the sampler, also 80 miscellaneous town and school reports; from Mr. Horace E. Ware, copies of his *Observations with the dipping needle at Boston in 1722*, and *Supplement to A forgotten prime meridian*; from Mr. James F. Ballard, a copy of Thomas Thacher's *Discourse delivered at Milton September 9, 1807*, being the day appointed for the dedication of the Academy in that place; from the heirs of Mary Hemenway, *Musée français*, 4 volumes, *Musée royale*, 2 volumes, *Société d'Aquarellistes français*, 8 volumes; from Mrs. George Rivers, 116 miscellaneous periodicals, 201 photographs, 46 miscellaneous volumes; from Miss Mary Rivers, 54 engravings and photographs, 19 numbers of the *Journal of American history*, 11 miscellaneous periodicals; from Miss Catherine W. Faucon, copies of Pennell's *Life of Whistler*, and the new edition of Dana's *Two years before the mast*, illustrated by Boyd Smith.

The Library is again indebted to the editor of the *Milton Record* for so generously printing, without charge, lists of new books and items of information in regard to the service.

There have been two changes in the staff. On June 30, Miss Agnes Lyall who had been in charge of the Mattapan Branch for two years, left the service. Miss Lyall, through her work with the Social Service League,

and with the boys' and girls' clubs, made a strong place for herself in Milton, and her leaving was greatly regretted. Mrs. Lucinda F. Spofford took charge of the Branch July 31. Mrs. Spofford has been a student at Simmons College Library School and was, before her marriage, a teacher in public schools; her varied experience is already proving of value to the Library.

On November 18, Miss Grace M. Edwards, who had been an efficient and valued member of the staff since March 1907, resigned, and her place was filled by Miss Charlotte S. Tower, who came on duty November 6. Miss Tower has for seven years been an assistant in the Paul Pratt Memorial Library of Cohasset, and this Library considers itself fortunate in securing her services.

Special mention should be made of the work of Joseph Forbes. During the seven years occupancy of the new building, the average yearly expenditure for repairs has been only \$32.93, which shows the excellent care the building has had under his supervision.

This report of work accomplished could not be written, were it not for the high ideals, the enthusiasm, and the loyalty of all the members of the staff.

Back of the staff stands the Board of Trustees whose service is constant and unrecordable.

Respectfully submitted,

GERTRUDE E. FORREST,
Librarian.

REPORT OF THE BOARD OF SELECTMEN OF MILTON.

January 1, 1912.

The Board of Selectmen of the Town of Milton herewith submits the seventy-fifth annual report:

Bonded debt of the Town, as of January 1, 1911,	
was	\$396,000
Paid during 1911	26,000

Bonded debt, January 1, 1912	\$370,000
--	-----------

On closing the books December 31, 1911, the balances on appropriations, with the exception of Miscellaneous, Poor, and Tree Warden Accounts, were found to be in a satisfactory condition. On account of the demands occasioned by the installation of new steel vaults for the Board of Assessors, a new system of accounting in the Tax Collector's Department, and the settling of legal claims, the Board was compelled to ask for a transfer from the Contingent Fund to the Miscellaneous Account. The Board believes that either the Miscellaneous Account or the Contingent Fund should have a larger appropriation, as it is evident that at the present, they are not large enough to meet the ever increasing demands made upon them.

The general conditions of the highways are, in the main, very good, and we feel that the Superintendent has done his work well. The Board felt it was a wise business policy to purchase a runabout automobile for this department. This enables the Superintendent to keep in closer touch with the work going on in different parts of the Town, and facilitates paying off the men on the work. Details of expenditures and receipts in this department will be found in the Superintendent's Report.

A five-foot granolithic sidewalk was built on Adams Street in East Milton, from Granite Avenue toward the Quincy line, for a distance of 1,080 feet. Permanent granolithic walks have been laid in the Mattapan District, in part on Blue Hill Avenue, Austin Street and Brook Road. These pieces of work took practically the entire appropriation of \$2,000. The Board believes that a larger appropriation should be made for permanent sidewalks, as there are a number of sections of the Town that are growing rapidly and consequently an increasing demand for them.

On September 23, 1911, the Board granted a franchise to the Bay State Street Railway Company to double-track that portion of Brook Road which lies between Blue Hill Parkway and Central Avenue. In connection with this work, the south side of Brook Road has been widened so as to make it conform to the original lay-out of seventy-four feet. It is planned to macadamize this part as soon as the weather permits.

By authority of Chapter 210 of the Acts of 1911, the Board granted the officers on the police force one day off in fifteen, which necessitated the appointment of an extra man.

During the year the Town has received \$3,750 of a bequest of \$5,000, under the will of Mrs. Oliver Peabody. This money has been deposited for the present in the Blue Hill National Bank, but will be invested by the Selectmen and the income distributed to the poor at Christmas, in accordance with the terms of the will.

The Board wishes to thank all Town officials and other citizens who have assisted it in the discharge of its duties.

MAURICE A. DUFFY,
PHILIP S. DALTON,
HENRY H. BARNES,

Selectmen of Milton.

REPORT OF THE SEWER COMMISSIONERS.

The Board of Sewer Commissioners reports as follows regarding the work of the Sewer Department during the year 1911, its report being in accordance with the form adopted last year:

General.		
Population by census of 1910		7,924
Total area of town		15 square miles
Area served by sewerage system	0.634217	square miles
Method of disposal		Metropolitan system
Collection Mains.		
	For	For Sewage &
	Sewage Only.	Surface Water.
Lineal feet pipe (measured)	52,195.31	700 (storm overflow)
*Lineal feet extended during year	3,027.50	
Number of inverted siphons	1	
Number of manholes	222	
Number of storm overflows	1	
House Connections.		
Number made during year	64	
Average cost per foot connections	59c	
Number of stoppages coming to notice of department	5	
Discharge of Sewer.		
Estimated population using sewer system	3,200	
Number of buildings connected	523	
Financial.		
Total cost collection mains to December 31, 1911		\$110,254 50
Bonded debt at date		18,000 00
Average rate of interest on bond		4%

For details of sewer construction account and maintenance account reference is made to the Financial Reports compiled by the Auditors as shown elsewhere.

Respectfully submitted,

JOHN BALCH,
ASAPH CHURCHILL,
CHARLES G. WAITT,
Board of Sewer Commissioners.

* The extensions made during the year were in Houston Ave., 1,431.5 feet, Morton Road, 396 feet, Morton Terrace, 400 feet, Eliot Street, 800 feet.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit the report of the Street Department for the year 1911. A great amount of repair work was necessary in the early spring season, as some of the roads were left in a very rough condition on account of the open winter.

The general cleaning of streets as is customary was first attended to. As soon as the steam-roller had finished smoothing and rolling the main roadways, permanent work was at once started.

Blue Hill Avenue near the Merritt estate was resurfaced and repaired with crushed stone; this street was also resurfaced from the Neponset River Parkway to the top of the hill at the Kennedy estate, paved gutters were laid and the roadway was widened. That part of Canton Avenue near the Wainwright estate was resurfaced and much repair work was necessary on this street in the Blue Hill District. Fairmont Avenue was resurfaced with gravel. Centre Street near the Sias estate was underdrained and resurfaced; this street was resurfaced with "Tar Macadam" from Randolph Avenue to the easterly line of the Cemetery property. Brook Road was resurfaced from Vose's Lane to White Street; this street was widened at its junction with Canton Avenue, removing a dangerous corner. Clapp Street was regraded and resurfaced from Central Avenue to Walnut Street, a sidewalk was built on the south side of this street and a drain was laid to care for the surface and ground water. Thacher Street was resurfaced and repaired from Canton Avenue to Lincoln Street. The surface water

drain on Thacher Street emptying into Pine Tree Brook from Houston Avenue was relaid with a larger pipe. Canton Avenue was regraded and resurfaced from Thacher Street to White Street; this work required a great deal of filling and was quite expensive. A 12-inch drain was laid in Canton Avenue from the Sias Brook to Thacher Street. This drain provides an outlet for all surface and underground water on the southwest side of the property adjoining the Town Hall and High School. Gun Hill Street from Centre Street to Randolph Avenue was widened and resurfaced with gravel. Highland Street was resurfaced with crushed stone from Randolph Avenue to Reed Street. Hutchinson Street was resurfaced with gravel and a sidewalk was built on the northerly side of this street. Squantum Street was widened between Adams and Granite Avenue. The culvert over the brook was extended to the property line and the roadway was raised and graveled. The roadway on the south side of Brook Road from Central Avenue to the Blue Hills Parkway was relocated in order that the Electric Railway Company might construct another track. This roadway remains in an unfinished condition owing to the lateness of the season when the work was commenced. The drain on Spafford Road which takes the surface and underground water was extended southerly for a distance of 360 feet. A drain was laid in Churchill's Lane from Brook Road northerly for a distance of 680 feet. This drain provides for all surface and underground water that had been flowing on private land. The drain at the junction of Willard and Mechanic Streets was lowered and rebuilt. The drain at the corner of Reedsdale Road and Canton Avenue was extended for a distance of 125 feet; two new catch basins were built and connected with this drain.

There were nineteen new catch basins built during

the season and all the existing basins and drains were cleaned and cared for. Granite Avenue Bridge was replanked and the draw was rebuilt, as the old one had become dangerous from general depreciation and hard usage from coal barges using the river. Part of the plank walk on Central Avenue was removed, as it was beyond repair; the remainder of this walk was repaired, but is in very poor condition and will soon have to be taken up. A sidewalk was built on the south side of Kahler Avenue. The sidewalk on Huntington Road was extended on the easterly side.

All the gravel walks were repaired with gravel and stonedust. Granolithic sidewalks were constructed on the following streets: Adams Street, northerly side from Granite Avenue to Granite Place, Blue Hill Avenue, easterly side from Blue Hills Parkway to Brook Road; Austin Street, southerly side from Blue Hill Avenue to Blue Hills Parkway; Brook Road, northerly side from Blue Hill Avenue 350 feet.

STREET WATERING.

The same method of oiling as used during the preceding year was continued and extended. There is now but one cart used for water sprinkling.

REMARKS.

The travel on all of our main streets continues to increase, and naturally causes a larger amount of repair work each season.

This work consists of a great deal of "patching" caused by the small holes which form in the surface of the roads from automobile travel. As the material used for this repair work has to be mixed and treated with some kind of an asphaltic oil, the maintenance expense becomes much greater every season.

As the supply of material for road repairs and construction is very limited in the Blue Hill and Brush Hill sections, the proper care of the streets in those districts becomes more expensive each year.

The extensions of the sewer, gas and water systems continue each year and cause an inconvenience in some places, to those who use, and live on the streets where the work is being carried on.

While a great amount of work has been done to make conditions safer for those who use our streets, there are still many places to be improved throughout the Town. This work consists of widening the roadways, building sidewalks and improving the corners of intersecting streets.

An automobile was purchased and used by this department during the past season, one horse was disposed of and all the employees were paid on the work. This change was an improvement to the old system and much more economical and satisfactory.

The wages of the men employed were increased 25 cents per day and was greatly appreciated by them.

In concluding this report I wish to extend to your Honorable Board my appreciation for your assistance, and to the citizens and employees for their co-operation in the general work of this department.

Respectfully submitted,

EDWARD A. McCUE,
Superintendent of Streets.

REPORT OF THE TREE WARDEN.

To the Citizens of Milton:

The street trees received more attention outside of spraying than for some time, but there are still a good many trees which need careful pruning. This work includes heading back of weak trees, and careful study of what must be removed to help the various systems of wires which present-day conditions make necessary in our streets.

The early spring was so dry that I made no special effort to plant out new trees, and I was later glad that I had not, as the heat and drought of July would have dried them up for a certainty, and though the autumn was damper, the necessary preparations had not been made. Spring planting is usually the most successful. A small beginning was made on the nursery at the Town Farm, where the ground assigned for this purpose was ploughed and a reasonable number of young trees planted in the rows to be grown for future use.

Outside the Gypsy and Brown-tail moths and Elm-leaf beetles, the insect problem was perhaps a little less difficult in the tree work this year than for several years past. I may perhaps mention that all farm crops were badly infested with insects of all kinds. Various canker worms or inch worms were less abundant than for many years; they have been dwindling away, but have always shown up in abundance locally until this year when they were scarce throughout. Tent caterpillars are on the increase, as I have stated in former reports, and were especially in evidence on Harland Street this year. Forest tent caterpillars scattered over the town were nowhere very troublesome. Leopard moths, though occasionally seen,

are as yet not very destructive in Milton. They are insidious and likely to appear in quantity any time. The above enumerated are the most noticeable of the insect enemies of the trees, but there are many not so much in evidence.

Many people who have in previous years had their trees sprayed by outside parties, availed themselves of the increased facilities of this department and had the work done by the town sprayers. This resulted in more work being done. The expense to the individual was less in cases where the amount of work was the same as in other years, but in so many cases the amount of work was increased that this fact was obscured. The necessity of charging up the gypsy moth spraying and the elm-leaf beetle spraying separately, made the system of accounts difficult, but I believe that the work has been in the main satisfactory. For some reason not yet positively established, the spraying this year did not produce as thorough results as in previous years. Though it did check the eating and in nearly every case save the foliage, the egg clusters are now more abundant than they ought to be, though smaller than usual. Thus some gain was made but not as much as is expected from spraying. Various explanations have been offered why the poison was not up to its usual efficiency, but perhaps the most likely reason is to be found in the season of excessive heat and dryness. Frequent analyses were made by the State Forester during the season.

The third power sprayer was bought last spring, and while it differs only in minor details is an improvement over the 1909 machine. I hope to sell the first and oldest machine, as it is a little heavy for our steep hills. If I succeed in selling it, I propose to buy another of the same make as this year's brought up to date. There seems to be some hope of one or more power sprayers being

bought and owned by individuals in the town. This would help the work of your Tree Warden immeasurably.

Of the various means of combating the gypsy moth, spraying seems still to be the best, but all the different methods should be combined in proportions varying according to circumstances. Burlapping trees is very important where time can be had to attend to them and turn the bands frequently, killing the caterpillars found under them. Burning out stone walls with oil has its place, and can well be used on a small scale. When carried out on a large scale it becomes very arduous, and in several ways dangerous. Purposeless stone walls, or especially stone piles, should be used for drains, cellars, roads, etc., as far as possible. Bands of tanglefoot around the trunks of trees are useful, but it must be remembered that these bands need some watching to see that the caterpillars do not find their way over them by means of sticks, leaves or other substances falling in the tanglefoot. Something of the same system as that employed for burlap should be followed with these, and the hordes of caterpillars which gather about them should be destroyed.

Perhaps the most hopeful signs of the campaign against the gypsy caterpillar are to be found in the results of the study of "Flacherie" or wilt disease. This acts much like cholera in human beings, and leaves the caterpillars hanging limp and lifeless, and the smell is very offensive unless by association. Under natural conditions this disease does not break out until the larvæ are very abundant, and this naturally means that the trees are stripped before the worms die. Experiments have been tried, and with considerable success, in causing flacherie at an earlier stage of the caterpillar's growth. I expect to be able to try this on a large scale in Milton next summer, but it is all so uncertain as yet that I do not dare trust

to it, but feel that I must carry on all the former lines of work just as if the disease did not exist at all.

Thus I feel that I must again ask for the same appropriation for this work, while the general work requires somewhat less.

To be expended in the extermination of the gypsy and brown-tail moths, \$10,000.

To be expended in the care and planting of shade trees and the destruction of insect pests injurious to trees the ensuing year, \$1,500.

Respectfully submitted,

NATHANIEL T. KIDDER,
Tree Warden.

REPORT OF THE WATER COMMISSIONERS.

To the Citizens of the Town of Milton:

The Water Commissioners respectfully submit the following report of their operations for the year 1911.

At the annual meeting in March, Thomas B. Gordon was elected for the term of three years, to succeed himself.

At the same meeting an appropriation of \$1,000 was made for the extension of mains, and the usual appropriation of \$9,000 was made for hydrant service.

The total amount expended for new construction in public streets was \$9,966.09, apportioned as follows:

Harland Street, 966 feet of 8-inch pipe (costing \$1,277.48, less \$425.85, paid by private subscription)	\$851 63
Randolph Avenue, south of Hillside Street, 302 feet of 6-inch pipe	386 40
Pleasant Street, 577 feet of 6-inch pipe	1,206 38
Elm Street, 647 feet of 6-inch pipe	859 60
Squantum Street, easterly of Granite Avenue, 1,033 feet of 6-inch pipe	1,573 29
Hope Avenue, 903 feet of 4-inch pipe (costing \$819.15, less \$200 paid by private subscription)	619 15
Granite Avenue, near Hope Avenue, 173 feet of 6-inch pipe	266 92
Eliot Street, end of pipe to Cliff Road, 973 feet of 6-inch pipe	1,507 31
Eliot Street from Valley Road to Capen Street, 914 feet of 6-inch pipe	1,245 94
Reedsdale Road at Clifton Road, 61 feet of 6-inch pipe	172 42
Blue Hill Avenue, near Sumner School, 574 feet of 6-inch pipe	783 68
New 6-inch line off Wharf Street, 250 feet of 6-inch pipe	493 37
Total	<hr/> \$9,966 09

In doing the above work 11 hydrants were installed and the cost of so doing is included in the construction work.

The Squantum Street work was of importance because a large number of dwellings on streets leading off from it were receiving their water supply through a very small pipe, laid many years ago, which furnished no fire protection whatever. This pipe has now been replaced with one of adequate size.

The filling in of gaps on Eliot Street was of considerable importance as there is now a line of pipe over the shortest route from the Lower Mills to Mattapan, insuring a proper flow of water if there should be a failure on alternative routes.

The installation of the hydrants above mentioned brings the number in public streets to 348 and in private property to 24, a total of 367.

There has been no change in the number of standpipes. There are at present 1,510 active services, an increase for the year of 56.

The vote of the Town at the annual meeting in March with reference to the Highway Department appropriation appeared to indicate the approval of the Town of a payment of \$2.25 a day for laborers. Accordingly the pay of laborers in the Water Department was increased twenty-five cents a day, to \$2.25, and twenty-five cents a day was added to the wage of each of the permanent men. This item, together with certain unusual expenditures, such as the purchase of a meter testing apparatus, have increased the cost of operation over other years.

The receipts of the department from December 31, 1910, to December 31, 1911, excluding service work, for which the department was reimbursed, were:

From water takers	\$39,001 27
(An average of \$25.98 per service, based on 1,501 services, an average number.)	
From street watering	419 76
Interest on deposits	166 74
Total	\$39,587 77
Appropriation for extension of mains	1,000 00
Appropriation for hydrant service	9,000 00
Making available for the work of the department	\$49,587 77
The expenses of the department during the same year, excluding the service work which was paid for by property owners, and excluding new construction, were	\$13,258 51
Interest on 224 bonds	7,840 00
Metropolitan water	16,036 02
Total	\$37,134 53
Construction	9,966 09
	\$47,100 62

The balance on hand at the date of the annual Town meeting, \$3,211.68, reverted to the general treasury of the Town.

It will be seen by reference to the following table that in 1910 the money returned to the Town approximated the appropriation for the extension of mains and that in 1911 it considerably exceeded the amount appropriated for that purpose. It is our desire to give the water takers the benefit of this surplus by a reduction of rates, but a satisfactory reduction will deplete our revenue so as to create a deficit. If the Town increases its appropriation for hydrant service and extension of mains it is our desire to fix a rate of twenty-five cents for 100 cubic feet with a minimum charge of \$6 for services having only one fixture, and \$12 for services having two fixtures or more. Such a reduction based on the consumption of 1911 will reduce the income about \$7,000. To a certain extent a reduction may be offset by increased consump-

tion, but this cannot be relied upon and we feel that the Town should help out the water takers to the extent of at least \$3,000. The appropriation for hydrant service has not been increased for nearly ten years, although the number of hydrants in public streets during that time has been increased by 65. It, therefore, in view of the increased fire protection, seems to be justifiable that the hydrant service appropriation be increased to \$10,000 and that the sum of \$3,000 instead of \$1,000 be appropriated for the extension of mains. If the consumption, as the result of reduction in rates, increases, the Town will receive the benefit in the amount of money reverting in March, 1913. It may be possible to make some small economies in operation and some of the unusual expenditures of the previous year may be unnecessary in 1912, but these savings will undoubtedly be offset by an increased cost of liability insurance on account of the recent Workingmen's Compensation Act, effective July 1, 1912.

The following figures show sums expended from Town funds on the water plant:

Amount paid for Milton Water Co.	\$199,608 35
Bonds of Milton Water Co. paid off	120,546 67
Appropriation for extension in 1903	4,000 00
Appropriation for extension in 1904	5,000 00
Appropriation for extension in 1905	4,000 00
Appropriation for extension in 1906	7,000 00
Appropriation for extension in 1907	4,000 00
Appropriation for extension in 1908	4,000 00
Appropriation for extension in 1909	3,000 00
Appropriation for extension in 1910	2,000 00
Appropriation for extension in 1911	1,000 00

Total	\$354,155 02
Less balance reverting in 1904	\$8,908 09
Less balance reverting in 1906	220 59
Less balance reverting in 1907	2,042 52
Less balance reverting in 1908	1,520 80
Less balance reverting in 1909	985 68
Less balance reverting in 1910	1,900 75
Less balance reverting in 1911	3,211 68
	<hr/>
	18,790 11
	<hr/>
	\$335,364 91

11 bonds have been paid at maturity in each of the years
1903 to 1911 inclusive, amounting to \$99,000 00

Respectfully submitted,
CHARLES S. PIERCE,
THOMAS B. GORDON,
REGINALD M. JOHNSON,
Water Commissioners.

was needed. \$2,000 Outstanding Jan. 1, 1912.

FUNDS HELD BY THE TOWN.

PERPETUAL CARE FUND.

Amount held December 31, 1911 \$26,361 00

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15-18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND.

Amount held December 31, 1911 \$2,626 67

The interest on this at the rate of 4 per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. REED PUBLIC PARK FUND.

Amount held December 31, 1911 \$4,260 47

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

.
"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith its Report for the year ending December 31, 1911.

STATISTICS, 1911

Assessed valuation of the town . . .	\$28,644,203 00
Total amount raised by taxation . .	325,506 53
Amount expended for general school purposes	89,651 20
Amount expended for transportation of pupils	1,926 25
Amount expended for medical inspection	316 75
<hr/>	
Total school expense	\$91,894 20
Percentage of school expense to total tax levy282
Percentage of school expense to valuation003+
Cost per pupil based on average membership	\$65 78
Cost per pupil based on total enrollment	59 63

REQUIREMENTS FOR 1912

Your Committee has made careful estimates for the ensuing year and is of the unanimous opinion that the following amounts should be appropriated:

The estimates are—

General school expenses	\$90,800 00
Transportation of pupils	2,000 00
Medical services and nurse	1,000 00

GIFTS

The School Committee desires to gratefully acknowledge the following gifts which have been made to the schools during the year:

A collection of pictures, friezes, busts, and plaster casts, from Samuel Barnard, executor, estate of Augusta Barnard.

HIGH SCHOOL:

Large bust of "Apollo," from class of 1911.

Oil portrait of Hiram Tuell, principal of the school from 1878-1897, from the Tuell Alumni Association.

To the Printing Department, \$5, from Milton Woman's Club.

VOSE SCHOOL:

A large United States Flag, from Mr. William B. Thurber.

Pictures—"St. Peter's Cathedral" and "The Horse Fair," and bust—"The Maiden of Lille," from Mr. Nathaniel T. Kidder.

Pictures—"Boyhood of Sir Walter Raleigh," "Venetian Scene," and "Arabian Cavalry," and Statuette—"Diana, Robing," from classes of 1908, 1909, and 1910.

Two pedestals, from the class of 1911.

GLOVER SCHOOL:

Portrait of Abraham Lincoln, from Col. Oliver W. Peabody Camp 74, Sons of Veterans.

Picture—"The Horse Fair," Rosa Bonheur, from Master Felix Turner.

TUCKER SCHOOL:

Pictures—"Chariot Race" and "Anne Hathaway's Cottage," from class of 1911.

Bust of Wagner, from a Friend.

Pictures—"Age of Innocence," "Out for a Sail," "Helping Hand," "Pilgrims Going to Church," "Shepherd

and Flock," "Song of the Lark," "Castle of Chillon," "End of Day," "Sunset Glow," "Hope," "Autumn Gold," "Dance of the Nymphs," "Sunset at Sea," "Amalfi," and "Stratford-on-Avon," from the proceeds of Picture Exhibit.

BELCHER SCHOOL:

Picture—"Durham Cathedral," from class of 1911.

GENERAL COMMENTS

SHORT VOCATION COURSES

Two year courses known as short vocation courses have been introduced into the High School this year for the first time.

The courses are designed principally for pupils who do not intend to spend four years in the High School, but who, nevertheless, wish to receive instruction which will be immediately useful in earning a livelihood. The courses are in carpentry and woodworking, printing, dressmaking, and domestic training.

A scholar satisfactorily completing one of these courses is given a certificate (not the regular High School Diploma) for these courses are not substitutes for the regular High School course.

It is perhaps too early to state with confidence what these courses will accomplish, but they have already stimulated and improved the scholarship of the pupils participating in them in a gratifying degree.

SCHOOL NURSE

At the last March meeting an appropriation was made for a school nurse. A nurse has been employed, and the Committee are of the opinion that the work accomplished by her as shown by her report has fully justified the expense, and that the services of a nurse should be continued.

LEOPOLD MORSE HOME PUPILS

In accordance with the instructions embodied in the vote of the Town at the last March meeting, the Committee made a demand upon the Trustees of the Home for the extra expense of the Town for the tuition of the children from the Home. The first payment has been made covering this expense, from March 6, 1911 (the date when the vote was passed), to June 22, 1911 (the end of the Spring term).

HIGH SCHOOL GRADUATES IN COLLEGE

The Committee takes pleasure in stating that nine out of ten pupils, of a class of thirty-three, graduating from the High School in June last, successfully passed college entrance examinations, or were admitted on certificate.

EXPENDITURES

We again recommend increase of salaries, that the sum of \$2,000 be added for this purpose to the general appropriation, and that the bulk of the appropriation be used in increasing the salaries of grade teachers from \$700 to \$800.

The objection has been raised that Milton is already paying its teachers more than most towns and that the school expenses are already large. The Committee does not consider that either objection is necessarily conclusive.

The objection that Milton is already paying its teachers more than most towns, would have more weight with us if we felt (as we do not) that teachers are in general properly paid. With prevailing salaries we feel that the teaching profession is not likely in the future to attract a large number of competent teachers.

As to the second objection, we believe that there are three main reasons for the large school expense: (1)

the number of pupils per teacher is small; (2) several schools are being maintained to serve conveniently the scattered communities in Milton, which in a compact town would be unnecessary; and (3) the subjects taught are greatly diversified.

THE NUMBER OF SCHOLARS PER TEACHER

The number of grade scholars per grade teacher (not including special teachers) is approximately twenty-eight per teacher. If the Town should consider it advisable that the number of scholars per teacher should be increased from twenty-eight to forty (the number of grade scholars per grade teacher in the Boston schools) we estimate that a saving of \$7,700 could be made, by discharging teachers. Such a change, however, cannot be accomplished without abolishing certain schools, and placing two or more grades under one teacher.

It is the opinion of educational experts that the number of grade scholars per teacher should be small, that one of the prime aids to the better education of a child is personal attention by the teacher to the individual peculiarities of the scholar—this can only be brought about by having the number of scholars under one teacher small.

THE OUTLYING SCHOOLS

The Houghton, Sumner and Wadsworth schools are in our opinion necessary on account of the widely scattered communities in Milton. We think that the young children who attend these schools should not be required to go long distances to school, and therefore believe that these schools should not be abolished and the scholars distributed among other schools.

DIVERSITY OF SUBJECTS TAUGHT

Milton is offering a greater diversity in vocational

studies than any Town of its size in the State, and is giving the same school advantages which are offered in much larger communities. The Committee is gratified to state that in the High School sixty-five pupils are taking the vocational courses and ninety-two pupils are taking the commercial course, out of a total of 278 scholars.

The common schools are striving to model their courses to the needs of the great majority of the pupils who must look forward to earning a livelihood at an early age. Vocational education is becoming more practical, and although its increase may lead to the elimination of some of the so-called "classical" courses, it seems essential for the present that both forms be continued.

If the Town wishes to return to a school system of the past, we estimate that the following savings may be made:

By increasing the number of scholars per grade teachers from 28 to 40, and abolishing two of the above schools, deducting, however, the estimated cost of transportation	\$ 8,225
By abolishing kindergartens, vocation courses, manual training, printing, sewing, cooking, drawing, music, and physical training . . .	13,300
Total	<hr/> \$21,525

It is, perhaps, superfluous to say that we do not recommend any of the foregoing methods of saving expense. We believe it would be a serious backward step to curtail the school curriculum, that the Town's money used in supporting the schools is well spent, that this Town can afford to bear the burden of all of these factors of expense and that the Town is fortunate in being able to offer better opportunities for common school education than are offered in most of the towns and cities of the State,

at an expense which is comparatively less burdensome to the tax payers.

We recommend an increase of the grade teachers' salaries from \$700 to \$800 for the following reasons:

In the last twelve years the salaries of these teachers have been increased less than 8 per cent; in the meantime, the cost of living, it is stated on good authority, has increased over 30 per cent.

It is not hard to get teachers, but it is difficult to secure the right kind of teachers.

We estimate that even with the recommended increase in grade teachers' salaries to \$800 it will leave them still in a slightly worse position financially than they were twelve years ago, with a salary of \$650.

PART I.
EDUCATIONAL SURVEY

REPORT OF THE SUPERINTENDENT

To the School Committee:

I respectfully present my eleventh annual report covering the work of the department of public schools, for the year 1911. It is the thirty-second in the series of annual reports of the superintendent of schools.

The customary order of arrangement has been changed. The report now appears in two parts. Part I is a survey of the organization, administration, and work of the schools, and Part II consists of special reports and statistics. It is believed that the present arrangement is an improvement over the preceding one, especially for reference purposes.

During the ten years of my connection with the Milton schools as superintendent, changes in old policies and practices and the incorporation of new features into the school system, have been in progress. This is inevitable during a decade of any administration whose sole object is the better adaptation of the work of the schools to the diverse educational needs of every boy and girl, growing out of a variety of abilities and the importance of adequate preparation for good citizenship and for efficient service in some chosen field of useful labor.

All important changes and new features have been the result of much study, careful thought, and open discussion. Every new policy or change, before its final adoption by the Committee, has been subjected to the closest scrutiny and investigation. Not infrequently measures of importance have been under consideration for months before favorable action was taken. This method of procedure insured full and impartial considera-

tion of all questions. It gave time for the thorough discussion of honest differences of opinion. It made possible the analysis and comparison of all the reasons for and the objections against any question. It made better legislation.

In the consideration of any question affecting the administration or work of the schools, certain fundamental considerations are of the utmost importance. What is the object of the proposed change or new feature? How will it accomplish the ends sought? Is it in the interest of the whole community, entirely apart from private and factional interests? Is it practical? Will it increase the cost of school education, and, if so, will the results justify the increased expenditure? Can the municipality afford the larger cost? The measures adopted during the last ten years were the result of these fundamental considerations applied to every question.

THE BUSINESS OF THE DEPARTMENT

The business of the school department is conducted through the superintendent's office under the direction of the Committee. This consumes a large amount of the superintendent's time, which must of necessity be taken from the educational side of the work. Very few people have any idea of the variety and amount of business which is often transacted in a single day. The correspondence alone requires much time. It includes not only the correspondence growing out of the business and educational work of the schools, but the answering of many inquiries from different parts of the country for information regarding our schools. During the ten years the correspondence has increased over three hundred per cent.

The bulk of the school supplies are bought twice a year, January and June, instead of more frequently as

before. To be sure, supplies are bought at other times, but mainly to replenish stock which has become depleted. The supplies are bought through competitive bids, except in those instances where nothing is to be gained by asking for bids. This method of buying insures low prices, quality always considered, and many times has resulted in a considerable saving of money for the department. The same method is followed in making repairs of any importance on buildings and other improvements. Here, too, the saving effected has been large.

SCHOOL PLANT

Many changes and improvements have been made in the school plant since 1901. Consequently it is in better condition to-day than it was then, although more must be done to make all the buildings measure up to the standards of a modern school-house.

The sanitary arrangements of the High, Thacher, Belcher, and Sumner schools were changed and satisfactory systems installed. The Wadsworth is the only school which still has a dry closet system.

Ten years ago the classes in manual training in grades 7, 8 and 9 of the Belcher and Tucker schools had to be sent to the High School manual training rooms for their work, as there were no such rooms in these schools at that time. This arrangement was very unsatisfactory. Too much time was consumed in going to and coming from the work, and the moral effect on the boys, who had to be sent a mile or more to the manual training rooms in the High School, without immediate supervision, was not wholesome. To remedy these conditions a manual training room was fitted out in the Tucker School in 1902, and a similar room in the Belcher School in 1903. In 1909, an addition to the Tucker School was built for manual training, as the room then used by the manual

training classes was needed as a regular class room to accommodate the increase in the number of pupils. With the manual training room in the new Vose School there are now five such rooms—one in each grammar school and two in the High School.

Up to 1911 the High School was the only building having specially fitted rooms for sewing and cooking. The new Vose School has two such rooms.

Ten years ago most of the school furniture in use was the old style, non-adjustable kind. To-day, every building, with the exception of a few rooms in the High School, is equipped with adjustable furniture. It is now possible to adjust a pupil's desk and chair to him instead of attempting the impossibility of adjusting the pupil to his seat. The results are greater comfort and more healthful positions for the pupils while working.

TEACHERS

The number of teachers employed by the town in December, 1911, was 69. Of these, 58 were class teachers—12 in the High School, 40 in the elementary schools, 6 in the kindergartens, and 11 directors and special teachers.

Eleven teachers resigned during the year—1 in the High School, 6 in the elementary schools, and 3 special teachers. Five teachers of the 11 resigned to accept positions elsewhere at higher salaries. The following list contains the changes in the teaching corps:

RESIGNATIONS

High School—Maurice B. Merrill.

Vose School—Miss Celia Tilton, grade 8; Miss Rena A. Saunders, grade 7.

Tucker School—Miss Delia M. Holman, grade 6; Miss Vera A. Sickels, grade 5; Miss Bertha A. Pettee, grade 4; Miss Isabelle C. McIntyre, grade 3.

Belcher School—Miss Adelaide Patterson, principal's assistant.

Directors and Special Teachers—Miss Ethel I. Gray, assistant in manual training; Miss Amalie F. L. Grutzbach, printing, and assistant in manual training; Mr. Leon G. Lewis, special assistant in manual training and industrial work.

TRANSFERRALS

Miss Agnes S. Ord was transferred from the Houghton School, kindergarten and grades 1 and 2, to the Tucker School, grade 3.

Miss Annie A. Bradeen was transferred from the kindergarten, Wadsworth School, to the kindergarten, grades 1 and 2, Houghton School.

NEW TEACHERS

High School—Mr. Harold B. Garland; Miss Christine L. Lewis.

Vose School—Miss Mabel S. Wilson, grade 7.

Tucker School—Miss Helen F. Duncan, grades 5 and 6; Miss E. Jennie Farrell, grade 4.

Belcher School—Miss Nellie M. Knowland, principal's assistant.

Directors and Special Teachers—Miss Beatrice M. Briggs, assistant in manual training; Miss Alice L. Tucker, assistant in manual training; Miss Helen J. Holmes, printing.

For some years the subject of teachers' salaries has been a topic of discussion in the superintendent's report. Again I refer to the subject because the teachers are not receiving adequate salaries for the service expected and rendered, and in the hope that what is said may help the Town to realize more fully the wisdom of paying larger salaries. When we consider that the teachers in the elementary schools have only had an eight per cent in-

crease in twelve years, and that in 1909; that the cost of living has increased out of all proportion to the increase in salaries; that in all grades of schools higher qualifications and better work are demanded of all teachers; that the work of teaching, although very interesting and enjoyable to those who love it, is nevertheless nerve exhausting, and all too frequently results in nervous breakdown; that the teacher is expected to make a good appearance both in public and in the school-room; that to keep youthful and abreast of the times and to increase in wisdom and stature, the teacher must travel and must learn from great teachers and thinkers in summer schools, and through lectures, books, and periodicals: then we must conclude, it seems to me, that the teachers are underpaid.

The teachers of Milton as a body are well educated, intelligent, and conscientious, and are working hard to accomplish satisfactory results. They deserve adequate salaries from the Town for valuable services rendered.

The standard of qualifications for positions as teachers in the schools has been raised during the last ten years, and although this is most desirable, it makes it all the harder to find qualified teachers at the present salaries to fill vacancies, for all other progressive towns are looking for the best teachers. Frequently it becomes necessary to spend a large amount of time and effort to find the best available teacher for a vacancy. The merits of local candidates are always given careful consideration, and they are favored when they are as good or better than teachers from elsewhere.

The means employed by the superintendent to direct the work of the teachers have been teachers' meetings—general, grade, and special—school visitation, conferences with small groups and individuals, and the "Milton School Journal."

THE ELEMENTARY SCHOOLS

Course of Study

The criticism is quite frequently met that the public schools teach too many subjects, and the tendency to increase the number is deprecated by many. The claim is made that if the number were reduced to the mere rudiments, much better work could be done, and the product of the schools would be better prepared to do the world's work successfully. While there is no doubt some truth in these strictures on the number of subjects taught, and the limit of adding new subjects without dropping any, it is hoped, has been reached, the proposed remedy would not in my judgment produce the wished for results.

It is an interesting fact that not a single new study taught as a separate subject, has been added to the elementary school curriculum in Milton since 1901. As an actual fact there are not as many subjects taught as there were at one time. Latin, geometry, and physics are not now taught in these schools.

Manual training, sewing, and cooking were taught ten years ago. In fact, sewing was introduced in 1884, manual training in 1892, and cooking in 1893. Since 1901, however, the work in these subjects has been extended and made more practical, and more time is being given to the teaching. But who will say, being at all conversant with the practical value of these subjects and the work which is being done, that too much time is given to them, and that money expended for their teaching could be used to better advantage! The so called fundamental subjects are not neglected in our schools, and honest, intelligent efforts are being made to produce satisfactory results.

I have made the statement many times, and my con-

viction of its truth grows with the years, that if the public schools do not accomplish all which seems desirable, it is not due to the teaching of too many subjects, at least not in Milton, but rather to other causes. The distinction between what is really worth while and essential and the non-essential is not always clearly made, sometimes as much attention being given to the one as to the other. Whenever this is done, the number of facts taught are so excessive and they are so confusing to the children, that really very little, if anything, is thoroughly learned. Poor methods of teaching, lack of good scholarship, and lack of knowledge of the principles of teaching, are also responsible in some cases. Then, too, the various abilities of children and their physical states, the home conditions, and irregular attendance, are important determining factors. The fact is that the fault of whatever shortcomings may be in the schools is only partly due to the schools. The home and the community must share the blame.

While the schools are not doing their work in all respects as one might wish and as they undoubtedly will do some day when the whole process of education is better understood than at present, I have no hesitation in saying that the work is decidedly better than it was twenty-five or more years ago, and is a better preparation for further study or for the active duties of life. This is not an off-hand statement, but a conclusion reached after a very careful study of the subject.

A general revision of the course of study was made in 1902, and since then some changes have been made. A general revision is again in progress. The aim of the present revision is to include what is of most value and to exclude everything else.

In 1908, the number of grades was reduced from nine to eight, and in 1910 the age of admission to the kinder-

garten was raised to five years, and of grade 1, to six years. These changes necessitated a partial rearrangement of the course of study, and made it possible to bring the work of the grades more in harmony with the work in over eighty per cent of the cities and towns in the United States, whose admission ages to the kindergarten and grade 1 are the same as ours. Results already show that these changes are working to the advantage of the children and economize time and expense.

The kindergarten course was made a more integral part of the elementary school curriculum through a closer relation of its work to the work of grade 1.

Group Teaching and Individual Instruction

In 1902, for the first time, a uniform system of dividing the classes was adopted. All first and second grade classes, in one grade schools, were divided into three divisions, and all classes in grades above, into two divisions, in the main subjects of the classes, for recitation purposes. The divisions being smaller units than the classes, it became possible to put in a division those pupils who, because of age and maturity, ability and progress, regularity of attendance, and power of application and concentration, could be taught together to the best advantage. Besides, the smaller number of pupils to be taught at one time made it easier for the teacher to keep them interested, attentive, and mentally alert. While the teacher is teaching one division, those at their seats are studying and learning the power of concentration under various conditions, and of preparing set lessons without the teacher's assistance. This learning of the art of persistent application and study is of the greatest value in the further pursuit of knowledge or in the doing of work in one's chosen field of labor.

While the larger part of the time is given to the teaching of divisions, the teaching of smaller groups and individuals is by no means neglected. Teachers are instructed to take as much time for group and individual teaching as the needs of the pupils may require. This encourages and insures personal attention, which is so necessary to the satisfactory progress of pupils in every division.

In this connection it should be noted that the possibilities for individual teaching increase as the number of pupils to a teacher decreases.

HIGH SCHOOL

In recent years, high school education has made rapid progress in number of courses and variety of studies, in subject matter of instruction, and in organization and management.

There are several reasons for this. Present day life in its various phases and activities demands more than ever before trained workers in all lines of endeavor. The industries are calling for men and women who are skilled artisans or who are capable of becoming such, and who can think straight. Agriculture has become a science, and to achieve success adequate training is of the utmost importance. The office demands thorough training in office practice and initiative. The professions have made such progress in the domain of knowledge and methods of practice that long and efficient training is most necessary to success. The normal school, college, technical school, and other higher institutions of learning have increased their requirements for admission, both in quantity and quality, so that the high school which attempts to prepare its pupils to enter these institutions has a larger and more complicated problem to solve than formerly. The effort of the high school, to meet and

satisfy these conditions has resulted in a school quite different from the school in which preparation for college alone, or the furnishing of a general education, was its allotted work.

The province of the high school as a preparatory institution for higher schools is rarely questioned in our day. It seems to have become accepted as a settled fact. But the wisdom of devoting the high school exclusively to such preparation or largely so, is seriously questioned by an increasing number of thinking persons. The number of preparatory pupils is always small, comparatively, and to give the large majority of pupils a general course leading to nowhere in particular is unwise.

Thus through the demands of the times and the change of thought regarding the work of the high school, it has come about that there have been established in recent years technical and trade high schools, and vocational courses of study have been introduced into high schools. Such schools and such courses have definite purposes both as to vocational and cultural values. In general, these schools and courses are designed for the large number of pupils whose school days will end with the high school, and, who, upon leaving the school, become wage earners and citizens. They must give, therefore, technical training and skill and the elements of a so-called cultural education.

It is claimed that by the introduction of vocational studies or courses into the high school, the cultural element in education will not receive the attention it deserves, and, consequently, the scholarship standard will be lowered, and the graduates will be lacking in liberal culture. The force of this argument hinges on the question whether such studies as Latin, Greek, and mathematics, which at one time constituted the backbone and practically all the instruction which was given in the high

school, have peculiar claims as studies affording liberal culture.

It is not necessary to deny the liberal culture value of Latin, Greek, or mathematics in order to justify the introduction of vocational studies into the curriculum. "If we conceive of liberal culture," says Prof. Elwood P. Cubberly, "as coming from a study of those subjects which develop the judgment and understanding, enlarge the vision and insight, broaden the human sympathies, train for efficient living, and stimulate such intellectual ambitions as will make one interested in his life-work and good company for himself, then liberal culture may come to many different individuals from the study of many different things. A conception of the theory of evolution and of a few of its applications to modern life, such as may be obtained in a study of biology; the great mind-expanding (and I might also add religion-developing) results obtainable from a study of astronomy; a fair understanding of economic laws, obtainable from a study of economics; the growing conception of world relationships, such as may be obtained from a study of commerce or industrial history; the wonderful results of modern science, as opened up by a proper study of physics and chemistry; the awakening and refining of the practical judgment of the girl, such as comes from good courses in domestic science and household economics; or a study of the life, manners, art, government, and literature of Greece or Rome, such as might be given for non-classical students, wholly in English, and in a single year in a modern high school—any one or all of these may be liberal studies in the truest sense of the term, and a starting-point of a life lived in sympathy and in increasing contact with the best in our intellectual inheritance."

We need have no fear, I believe, that the introduction

of vocational studies will necessarily lower standards of scholarship and not make for sound education.

A prominent college president recently defined an educated man as follows: "An educated man is one who uses his native tongue, in both written and spoken form, with a reasonable degree of accuracy and precision; one who habitually uses gentle and refined manners; one possessed of the power and habit of reflection; one who has the power and desire to keep growing; and one who lives an efficient and useful life." That the new subjects of study such as bookkeeping, stenography, typewriting, carpentry and woodworking, printing, domestic arts, may be made to contribute their share to the production of such a man we may well rest assured.

Then there are those who take the position that as the new vocational studies increase the cost of the schools, they should not be added to an already overburdened curriculum. The validity of this argument hinges on the question whether the results justify the increased cost. What are the facts? It has been the experience everywhere, that when vocational studies and courses were added to the school curriculum the number of pupils entering the high school largely increased. This is due to the fact that there are many young people in every community who do not wish to prepare themselves for admission to higher institutions of learning, but who are desirous of fitting themselves as trained workers in industrial, agricultural, or commercial pursuits. If a community is justified in taxing itself to maintain a college preparatory school, why is it not justified in taxing itself to maintain vocational courses in order that the benefits of a practical high school education may be extended to all who are willing to accept it. Both are justifiable and necessary, and the modern high school should give both academic and vocational training.

The Milton High School is organized for both classes of pupils. Its seven four year courses—Classical, Scientific, Normal, Commercial, Carpentry and Woodworking, Printing, and Dressmaking may be divided into two groups—preparatory, or academic, and vocational. The first three courses are the preparatory and the last four, the vocational. The pupils in the preparatory courses are allowed to elect some manual training, printing, sewing, or cooking, and the vocational courses are made up of both academic and vocational studies. The Commercial Course was introduced in 1908, although previous to that time commercial studies were included under the General Course. The vocational courses were introduced in 1909.

To still further extend the educational opportunities of the High School, there were introduced during the year four two year vocation courses, and these are called the short vocation courses.

The short vocation courses are primarily intended for two classes of pupils:

(1) For those pupils who for various reasons have been delayed in their work in the elementary schools until they are of an age when they should be in the second or third year of High School.

(2) For those pupils who know they will not be able to remain in the High School longer than a year or two, and who want to pursue a course made up of subjects of the most immediate economic value.

Four courses are provided. These are carpentry and woodworking, printing, dressmaking, and domestic science and arts. The various vocations whose names are given to the courses are the center or core of the courses. The other work largely grows out of these centers, and it is made to contribute towards making each pupil an intelligent and efficient worker. To this end all work is made as practical as possible and is closely correlated.

A pupil who does satisfactory work in a short vocation course may change into a regular course and receive such credit as the work done in the short vocation course entitles him to.

A pupil who satisfactorily completes a short course will be awarded a certificate.

These courses are not intended to take the place of the four year high school courses, neither are they in any way the equivalent of the regular four year courses. A pupil who is qualified to take a regular course and can spend four years in the High School, should elect one of the regular courses.

REPORTS TO PARENTS

The system of reports to parents in the elementary schools was changed completely. The use of letters for recording a pupil's standing in conduct, application, and scholarship was discarded for the method of expressing in plain English whatever is deemed worthy of report by the teacher. At the end of each period of two months, the teacher sends home to the parent or guardian a report card with such facts as will enable him to intelligently judge the conduct, effort, and results of his child's work. With this knowledge he is in a much better position to aid the school's effort to make the child's school life as valuable as possible. Experience with this system has justified its introduction and continuance, for it is proving that it is superior to other systems previously used in the Milton schools.

The system, as far as I know, had never been used in any other system of public schools. Since its introduction into the Milton schools, a number of cities and towns, being dissatisfied with the old plan of reports and recognizing the merits of the new plan, have adopted it.

The system of marking the standing of pupils by letters

has been retained in the High School. Short definite explanations as to the meaning of each letter have been added to the report card, as well as blank spaces for recording briefly, at the end of each period of two months, such special facts which parents should know regarding their children's school life. These changes have greatly increased the value of the report card.

MEDICAL INSPECTION

The objects of medical inspection are to detect symptoms of contagious diseases and prevent their spread; to discover physical defects, and, if possible, to have them remedied; and to preserve and improve the conditions of health. In other words, medical inspection is designed to safeguard and promote physical soundness and capacity through hygienic surroundings and living.

Medical inspection was introduced into the Milton public schools in 1903. This was three years before the act of the Commonwealth providing for the appointment of school physicians and the medical inspection of schools went into effect on the first day of December, 1906.

During the first year the work was mainly confined to the detection of incipient forms of disease. The next year tests of sight and hearing were added. This, however, was not the first time that the eyes of the children were tested. In 1899, tests of sight were made by Dr. L. W. Mansur, under the direction of the School Committee. Nothing further was done until the year 1904, when the sight and hearing tests were added. Since then, the work has been gradually extended and improved to better accomplish the results sought. In November, a school nurse was employed to still further enlarge and improve the work.

While the nurse has been in service too short a time to

discuss her work in detail, she has achieved gratifying results. This is especially noticeable in the matter of cleanliness in the cases of certain children, the attention given to the care of the teeth and in the number of visits to dentists, and in the number of children who have received treatment for adenoids and enlarged tonsils. The results are of such a nature that it would be a misfortune if the work were not continued. When it is remembered that a defective child requires from six months to two years longer to go through the grades than a healthy one, without mentioning the too often needless suffering, it is very easy to figure out the extra cost made necessary for educating such a child due to some physical defect. In many of these cases the defects are easily remedied. The reason that they have not been remedied is quite frequently due to parents only partly realizing or not at all that their children are physically defective. When their attention is called to the matter there is a willingness on the part of many to provide the remedy.

In 1910, bubbling drinking fountains were installed in all the schools. During the past year, paper towels have been substituted for linen towels previously used. This undoubtedly has removed two possible sources of contagion in the schools.

The school physician made 36 visits to the schools, 12 more than in the preceding year.

The sight and hearing tests were made by the director of physical training, and included pupils of grades 1-8 and of the High School. The tabulated results are as follows:

.

REPORT OF SIGHT AND HEARING TESTS

	High School	Elementary Schools	Total
Number of children examined	180	1,089	1,269
Number found defective in eye- sight	28	158	186
Number found defective in hearing	2	36	38
Number of parents or guard- ians notified	18	159	177

As the work of medical inspection developed, the need of definite regulations became very apparent. The regulations governing medical inspection will be found in Part II of this report. They are the work of the Board of Health, the school physician, and the superintendent of schools, who were authorized by the Committee to prepare them. They are in conformity with State laws on the subject.

THE SCHOOL SAVINGS BANK

The School Savings Bank was introduced into the schools in December, 1899, through the efforts of Mr. D. P. Dame, then superintendent of schools. Mr. Dame, in his first report on the subject, in speaking of the value of saving, said among other things:

"We little know what far-reaching effects these early habits may have in determining the future careers of the children in our schools, but we trust that what they practice now may render them less likely to spend money recklessly and thoughtlessly, and may prove to be a safeguard against many vices and temptations to which they may afterwards be exposed." This is as true to-day as it was then.

The stamp-card system was the one adopted as it was the only system used by the school savings banks at

that time. This system was continued until October, 1904. Up to 1904, each collector kept his accounts in his own way. While the accounts were kept accurately, more or less confusion resulted by the use of different methods. It became more and more evident that there was great need of a uniform method of keeping accounts. Accordingly, a system was worked out by means of which uniform accounts could be kept in all schools, and which would give the children correct ideas as to how actual banking was done.

In 1911, the Legislature passed an act authorizing savings banks to receive deposits from school children. Upon its becoming a law, the Bank Commissioner sent a representative to study our method of carrying on the work of the School Savings Bank. It is gratifying to note that the system of keeping our accounts was thought so favorably of that the forms used were reprinted in a circular issued by the Commissioner on "Suggestions for Forms to be Used in the Operation of School Savings Banks." Since then, many inquiries have been received as to the methods of carrying on the work of our School Savings Bank. During the year the system was further improved by the addition of a Monthly Balance Sheet, suggested by the Bank Commissioner. The official name of the bank is the Public School Savings Bank of Milton, Mass. The business is transacted through the Dorchester Savings Bank.

The report of the bank for the year ending January 1, 1912, and the statement of deposits from the time of its introduction in 1899 to the present, shows a most gratifying growth, and is as follows:

The amount collected from the pupils and deposited in the Dorchester Savings Bank between January 1, 1911, and January 1, 1912, was \$1,054.95, an increase of \$172.65 over the year before. The amount deposited

between December 30, 1899, to January 1, 1911, was \$7,012.44, a yearly average of \$637.49. The total amount deposited between December 30, 1899, and January 1, 1912, was \$8,067.44, a yearly average of \$672.28. The last average is \$34.79 higher than the former average.

The number of depositors during the year was 633, an increase of 217 over the previous year, of which 178 were new ones.

HIGH SCHOOL PRINT SHOP

In 1908, the Milton Woman's Club gave the superintendent a sum of money with which to buy a printing outfit. Having previously studied the subject, I was able to purchase in a very short time a small but good outfit. This outfit was placed in my office, where the work was done until September, 1909, when it was moved into a small room which was made to serve as a print shop.

By that time the work had been carried on long enough in a small way and enough work done to prove that the subject could be successfully taught in the High School. Besides, upon investigation it was found that there is a demand for well trained, intelligent compositors at good wages in the print shops of Boston. Accordingly, in 1909, a four years' course in printing was introduced into the High School, and in 1911, a two years' course. These courses consist of academic and vocational work. The purpose is to give the pupils such knowledge as will help them grow and become better citizens, and to teach them the elements of the printing trade.

The department has grown to such an extent that in January, 1911, it had to be moved into a much larger room. The shop has a good equipment, to which additions are made from time to time as needed.

In addition to printing the Milton School Journal, many of the blanks used by the school department have

been printed in the shop, and it is hoped that in a short time all the school printing may be done there.

The printing department is attracting a great deal of attention, numerous visitors having inspected the shop and its work, and many inquiries are being received regarding the work. The product of the shop has received the commendation of those who are qualified to judge printing.

The Milton Woman's Club has continued its interest in the shop by gifts from time to time.

PUBLIC DAYS

Public days were held in the schools as follows:

May 24—High

May 25—Belcher, Wadsworth, and Houghton

May 26—Vose and Thacher

May 29—Glover, Tucker, and Sumner

At the High, Vose, Belcher, and Tucker Schools the exhibits of school work were placed in the school halls, which were open during the day and evening. In the other schools, not having halls, the work was placed on exhibition in the school-rooms.

The school exercises consisted of regular class recitations and special exercises.

The days were a decided success.

MILTON SCHOOL JOURNAL

The first number of the Milton School Journal was published in March, 1905. It is a publication devoted to the interests of the public schools of Milton.

It is the purpose of the editor to make the Journal a decided help to the schools in various ways. In general, it serves as one means of communication between the superintendent's office (the superintendent being the editor) and the teachers. More specifically it is the

medium for the presentation of official matter such as courses of study, rules and regulations, notices of meetings; and for the dissemination of such thoughts and suggestions, either written by those within the system or taken from the writings of the world's great thinkers and workers without, as it is hoped will stimulate study, provoke thought, induce better work, and help to make teaching a profession.

ASSOCIATIONS

The Milton Education Society was organized in the fall of 1900 by a few teachers in the public schools, who felt that an organization of some nature among those interested in educational affairs would be desirable.

Up to 1901 membership in the Society was confined to teachers. As president of the Society in 1901, my study of the educational situation convinced me that the Society, in order to best promote the educational interests of the Town and establish closer co-operation and sympathy between the home and the school, should add to its membership parents and other persons interested in the welfare of the Town and its schools. The idea was received favorably by the executive committee, and it was voted to admit persons, other than teachers, as well as teachers, to membership. A united and very successful effort to enlarge the membership was made in the spring of 1902.

The Society has had a steady growth, both in membership and in the extension of its work and influence in different directions. The Milton Historical Society is an outgrowth of the Education Society.

Between the years 1902 and 1910, the teachers had no organization exclusively their own. At a principals' meeting held January 11, 1910, I spoke of the value of teachers' associations, and suggested the formation of

such an organization in Milton. The suggestion met with a favorable response, and after considerable preliminary work, an organization known as "The Public School Teachers' Association of Milton", was effected, February 8, 1910, and to-day it is a flourishing society.

The object of the Association is the intellectual and professional improvement of its members and the promotion of good fellowship.

For a number of years parents' and mothers' meetings have been held in the different schools. These were generally well attended, much interest was shown, and great good done. Out of these meetings have grown two school associations, the Belcher and the Tucker, and a third, the Vose, is in process of organization. At the other schools the parents' and mothers' meetings are being continued.

Parents' associations and parents' and mothers' meetings have possibilities of great usefulness in that they can stimulate interest in the schools, make the people more intelligent as to present day educational ideals and practices, discuss community betterment, and present such other subjects as will stimulate interest in and disseminate knowledge of the best things. They make the school-house the center, the very best place for all classes and conditions of people to meet together for information, entertainment, and social intercourse.

SPECIAL REPORTS

Particular attention is called to the report of the principal of the High School, the reports of the directors and teachers of special studies, of the school physician, of the school nurse, and of the truant officers. They contain information which should be of interest and value to every citizen. I bespeak for them careful reading.

Respectfully submitted,

ASHER JOHNSON JACOBY,

Superintendent of Schools.

PART II
SPECIAL REPORTS AND
STATISTICS

HIGH SCHOOL PRINCIPAL'S REPORT.

MR. A. J. JACOBY, *Superintendent of Schools.*

MY DEAR SIR:—I have the honor to submit herewith my second annual report as principal of the Milton High School, covering the period to February 1, 1912.

The most conspicuous feature of the school is its rapid growth during the past few years. The following table of attendance for the past six years is appended. This signifies that the school has made an increase of 71 per cent in membership during the last six years, and that nearly four (3.53) of every 100 inhabitants of the Town are enrolled in its High School. This unusual record can but indicate that the parents of the Town believe the school is affording a practical and profitable education for their children.

No. 1

STATISTICAL TABLE 1907-1912. ATTENDANCE

Year Ending	No. Registered	Average Membership	Av. Daily Attendance	Per cent of Attendance	Regular Teachers
1907 . . .	163	149.97	142.68	95.1	9
1908 . . .	185	170.96	162.57	95.	10
1909 . . .	198	186	178	95.	11
1910 . . .	221	202	192	95.	11
1911 . . .	260	231.82	222.94	95.4	12
1912* . . .	280	263.36	254.26	96.54	12

*To date.

In this connection it may be pertinent to remark that the number of grammar school graduates in the Town last June was 113. Of these 89 entered the Milton High School this year. A considerable number moved from Town, but their loss was more than compensated by those received from other sources, so that the number in the class entering this last September is 114. Inasmuch as the Town is increasing in population but slowly, and in view of the statistics recently current, relative to the

discouragingly low percentum of grammar school graduates that the high schools of the country attract each year, it is encouraging to be thus assured that our courses are more nearly meeting the needs of the present day situation than those in many other places.

I believe that this result is due in a large measure to the practical nature and diversity of subject matter of the courses given.

The following statistical table of election of courses may be of interest to many. In this connection it should be noted that the four year vocational courses have been offered for the past two years only, and the two year courses were introduced this year.

No. 2

STATISTICAL TABLE ELECTION OF COURSES 1911-1912

Course	I	II	III	IV	P. G.
Commercial	33	29	16	13	1
Classical	9	9	7	5	4
Scientific	12	12	14	5	0
General	16	11	12	12	1
Carpentry, 2-year	7				
Carpentry, 4-year	4	14	8	2	
Dressmaking, 2-year	10				
Dressmaking, 4-year	4				
Domestic Science	4				
Printing, 2-year	4	0	0	0	
Printing, 4-year	4	4			

The fact cannot be overlooked that the influence of athletics, carefully supervised, has been and is a source of much interest and incentive to satisfactory scholastic work on the part of, not only the actual participants in the game, but, moreover, all those who are thereby awakened to the desire to themselves excel in some phase of the school work. The strict adherence to an unusually high standard of scholastic eligibility, in order to participate in any game, tends to remove that common impediment to satisfactory class work caused by the lack of any strong incentive to immediate and sustained mental

action, and thus to materially accelerate the progress of the whole class.

It has been deemed wise to keep the number of out-of-town games within a safe limit, in order to prevent too great a tax upon the players' time; and to encourage the playing of more inter-class games, in order to attract a greater number of boys to a reasonable amount of systematic physical training. The policy of playing evening games out of town is not approved.

Every school system has in it a considerable number of pupils who, for various reasons, have been unable to proceed with the rapidity or thoroughness of many of their fellows. This may be due to suppressed development, caused by too rapid growth; to ill health; to lack of interest or adequate incentive or to any other cause. The fact remains that these pupils fall behind their class, miss promotion, lose confidence in themselves, and, at the conclusion of the grammar school course, find themselves not only poorly prepared to take up the work of any higher education, but so far advanced in years that it seems, both to them and to their parents, too discouraging and expensive a task to warrant its attempt. The result usually is, that these very pupils who are the most unprepared to earn their own living, to offer their services profitably in the markets of industry, and who most need the restraining influence of a few more years of school life, are thus the first to be, as it were, thrust prematurely upon a community already thus burdened.

In order to help meet this problem the High School has opened to such pupils, and to any others so circumstanced that a regular four years' course appears to be impracticable, four special two-year courses, suited in their simplicity and subject matter to the preparation, abilities, and needs of such a class of pupils.

These special courses are all practical in their nature

and vocational in their character. They are called the two-year courses in Carpentry; Printing; Dressmaking; and Domestic Science. Their object is to establish in the pupil's mind a connection between the world of books and the world of practical work; to engender the spirit of the dignity and joy of any work, carefully and well performed; and to send these boys and girls forth from the school, in some measure, more capable of earning an honest living without the home, or of becoming more efficient and intelligent workers within the home, than they would otherwise have been likely to have become.

At a series of parents' meetings in each section of the Town, these new courses, together with the older ones, were explained by the Superintendent and the Principal at the close of the school year in June. Many private conferences were then arranged between the principals of the High and the Grammar Schools, the superintendent, the parents of the Grammar School graduates, and the pupils themselves. Great care was exercised to prevent pupils who could complete a regular course from enrolling in a two year course. The result was, that in September, 13 boys and 12 girls entered the High School in these courses. Of all these, the Grammar School principals' recommendation, and the subsequent study of the individual pupil, together with the circumstances at home, have given no evidence that any mistake has been made, either in the wisdom of establishing such courses, or in the selection of these special courses by the pupil. On the other hand, the pupils in other courses have been able to make much more rapid and satisfactory progress by themselves than would otherwise have been possible. Altogether, the arrangement appears to have been happy. The quality of work that these two year pupils have done is evidenced by the fact that of the 23 now in school, all have maintained an average passing

standing in the course, and many have gained a rank of A or B in several subjects, both vocational and scholastic.

A considerable number of these two year pupils who would not have entered the High School under the old plan, have already expressed the desire to complete a four year course. Just what provision may be made for them, after the two years, or, in some cases, at the close of the current year, is not now patent. It will be comparatively easy, however, to provide suitably for them, when the occasion arises, by transferring them to a corresponding four year course, or, in some cases of especial aptitude, by their doing some extra work, to a different four year course. By either method a regular diploma, instead of a certificate of work completed, may be awarded, and the pupil duly graduated.

An evidence of the satisfactory quality of work now being done by the school is its record in college preparation. Last September 5 boys and 4 girls entered college from the Milton High School, as follows: Harvard, 2; Dartmouth, 1; Boston University, 2; Pratt Institute, N. Y. City, 1; Mount Holyoke, 1; Simmons, 2. But one candidate this year failed any final college examination, and that one failed only one subject.

Last year the principal opened an employment bureau, the aid of which is available, without charge, to any graduate or pupil whose record, while in the school, was sufficiently satisfactory to warrant a satisfactory recommendation. This office, thus far, has been unable to furnish enough satisfactory candidates for business positions to meet the calls made upon it. It will not, however, recommend, unless the school record for ability and earnest work will warrant.

A complete system of office records and filing has been inaugurated, and several post graduates are thus given a thorough training in office practice and secretarial work.

These young ladies are available each June, for a permanent engagement, and a new force will be taken on the following September.

Friends of the school will confer a favor upon it by communicating to the principal the news of any vacancy for stenographers, book-keepers, typewriters, and other office help. The office also undertakes to find for its members, suitable employment for the summer, in various capacities, such as clerks, nurse girls, readers, companions, farm hands, etc. Any assistance in this work will be most welcome.

The course of study has been revised in some minor details, in order to meet changing needs. The most important changes are the increase from 4 to 5 periods a week in ancient history, algebra, and geometry, to meet college requirements; the concluding of the elementary mathematics in the third year, to relieve the congestion of the Senior year course; and the transfer of botany and of elementary physics to the first year. An important addition is the commencing of shorthand in the second year.

A large number of citizens availed themselves of the opportunity to visit our exhibit of Manual Training and Industrial work given in the assembly hall last June. Those who have not visited one of these exhibits recently will be greatly struck with the scope and excellence of the work. A cordial invitation is herewith extended to all to attend the next.

It has been a source of regret to the principal that the work of the school has kept him so engaged that he has been unable to call at more of the homes. A most cordial invitation is extended to the parents to call at the school. The principal is usually at the building on school days

until late in the afternoon unless called away on school business.

This report is respectfully submitted for your consideration.

CHARLES L. CURTIS,
Principal.

MANUAL TRAINING AND INDUSTRIAL WORK

MR. ASHER J. JACOBY, *Superintendent of Schools*.

DEAR SIR:—I submit for your consideration my annual report of the industrial department.

The work in the lower grades in being carried on by a carefully planned course correlated with drawing, and I am pleased to report very satisfactory results.

In the upper grammar grades the increased time given for the work has proved itself valuable in many ways.

The course as now arranged gives to each boy a good understanding of the correct use of the general wood-working tools. Working sketches and finished drawings are made and used in connection with the production of each object. It is the purpose of the course to so plan the work that, at the end of the grammar school period, a boy may be able to do, and do well, any ordinary piece of work about the school-building or at home.

The equipment in all grammar grades is quite complete and is in good repair.

The work in the High School is progressing in a very satisfactory manner. Last year the School Committee adopted two year vocational courses to meet the following needs:

“(1) For those pupils who for various reasons have been delayed in their work in the elementary schools until they are of an age when they should be in the second or third year of High School.

“(2) For those pupils who know they will not be able to remain in the High School longer than a year or two, and who want to pursue a course consisting of subjects of the most economic value.”

As a result of these courses twelve boys were registered in the Carpentry and Woodworking, and four boys in the

Printing departments. While it is, of course, impossible to give as complete a course as that given in the regular four year industrial course, it is possible to give to each pupil enough of the subject taken to enable him, after leaving school, to start in at a fair wage.

It is our desire to be able to recommend to business houses and manufacturing establishments needing young men, all those who have finished our industrial courses in a satisfactory manner.

The work of the print shop is worthy of mention. The whole number taking up the work of this department is twelve pupils—nine boys and three girls. The greater part of the school printing is done by the pupils, and a great deal of interest is manifested by both teacher and pupils with neat and attractive results.

Respectfully submitted,

CLARENCE M. HUNT,

Director.

SEWING AND DRESSMAKING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I am pleased to report that the work in this department has given general satisfaction the past year.

In the elementary schools the work is continued along practically the same lines as in other years.

The growth of the work is noticeable throughout all grades, but more particularly in the High School, as the industrial work has interested the parents and they have encouraged the girls to take the work.

This co-operation is the one thing needful to make the work a success. Last year the classes in the High School were larger, and, as a result, more work was accomplished than in any previous year.

The dressmaking courses added to the High School

now make it possible for this department to train the girls for positions as skillful workers in dressmaking. We have pupils who are taking the four years' course in dressmaking, and also we have more who have elected the two years' course in the same line of work. With the little training they have already received this year, the work in both classes shows good progress.

The girls who are taking the Domestic Science Course and have six periods of sewing a week, of which there are quite a number, are having an opportunity for practical experience that will be of value to them.

The interest developing in the work is teaching them to be self-reliant, accurate, and painstaking. In observing these requirements, they are able to perform their work in a satisfactory manner.

I believe the short vocation courses will be a great benefit to those girls who cannot take a four years' course, and if they continue to progress, the girls will be ready to take positions when they complete the course.

Respectfully submitted,

EDNA S. DOW,

Director of Sewing.

COOKING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The aim of the course in cooking in Milton is to give a practical knowledge of this subject and explain some of the reasons why certain methods will give desired results, others, the reverse. The lessons are carefully planned to develop in logical order the various principles of cookery as applied to the different foods.

The course begins in the seventh grade, the first of each February. Every class receives one lesson a week for one year in the grammar school. This work may be continued the first two years in the High School.

The first lessons are spent in teaching the girls to become familiar with the range, including the building and care of the fire, how to sweep, dust, wash dishes properly, and keep all cooking utensils in good condition. After learning how to measure, they are ready for the actual cooking. They begin by making cocoa, cooking cereals, potatoes, and other vegetables, and gradually progress to a study of the principles of thickening applied in making white sauce and cream of vegetable soups. The next subjects are batters and doughs, which include the making of muffins, biscuits, and bread; then the cookery of eggs, meat, and fish are considered. The laying of the table and correct and attractive serving is a part of the work.

In the High School more advance work is done in the cooking and a more definite knowledge is acquired of the source, cost, chemical composition, food value, and digestibility of each food as studied. The home is considered as a separate topic. Its location, plan, furnishing, and the care of each room is taken up in detail. Therefore, this course in the High School offers a study of cooking and household management.

The importance of studying these subjects is not sufficiently realized. Housekeeping should be regarded as a definite profession and one that requires thorough preparation, if it is to be conducted efficiently. There are few girls who will not sometime in their lives find a knowledge of this subject of as great value as any studied in the entire curriculum. We hear a great deal now of improved methods in business management and resulting efficiency. Some progressive women are interested to see if any of these principles can be applied in the house. Others prefer to do as they always have rather than change and do not welcome any suggestions of different methods. But if methods in business change with the

advances of science, why should there not be some progress in housekeeping.

Respectfully submitted,
HOPE RAWSON MUDGE.

DRAWING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I hereby submit my annual report.

ELEMENTARY HANDWORK

No changes have been made in the elementary handwork, weaving, cardboard construction, and clay modelling, in grades 1, 2, and 3.

DRAWING

Grade work.

The work in drawing, as shown by the exhibits in the different schools last May, shows a growth in the right direction.

Effort this year has been concentrated on the early grammar grades, for it was there that weakness manifested itself in a certain looseness in drawing. By constant drilling and continual insistence on the truth in details that defect was in a large measure corrected.

I felt that the experiment of the living-room problem for the eighth grade tried last year was so successful that I have included it in my drawing course.

High School work.

The institution of the new industrial courses in High School has increased the number of pupils taking drawing from sixty to ninety. These pupils study necessarily different phases of the subject according to their individual needs.

Owing to the small amount of time allowed to the drawing in the High School any arrangement by classes

of students of the same year and pursuing the same course is practically impossible. Hence, instruction must be individual, and considering the large number of students, progress is, of course, slow. Realizing the handicap, I feel that the work is good.

New outlines, with a few changes which seemed advisable, were given out at the teachers' meetings in the fall.

The changes made in the outline were in the way of elimination of everything that was not absolutely essential, the idea being that the results would be more valuable if a few things were more thoroughly executed than many things attempted and left unfinished.

Respectfully submitted,

ETHEL MAYHEW JAMES,

Director of Drawing.

MUSIC

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The music in our schools the past year has been conducted earnestly and successfully.

If the great object of teaching music is to instill into the pupil a love for it, you have only to observe the pupil while at work to know this has been accomplished.

Much care is given to the selection of the songs, and it is hoped that a love for the best songs will lead the pupil to always choose the best music, and in time much of the so-called "popular music" of the day will be entirely abandoned.

The arrangement and selection of the songs and exercises in the revised edition of the system now used in our schools, is giving such satisfaction to those now using the books, it is hoped in the near future all the grades may have them. The enthusiasm of the pupils now using them is certainly wonderful.

All the teachers are giving much attention to securing

the best posture of the child while singing, thus giving freedom in breathing and in tone production. This has been so successful in some classes that during the whole singing period no pupil has been out of position.

The High School chorus is very satisfactory. Selections from the best authors are studied and the parts are well sustained. The new book introduced so recently we are satisfied is the best now used in the public schools and the numbers we have tried thus far have confirmed our good opinion of the book.

Respectfully submitted,

GEORGE E. WALES,
Director of Music.

PHYSICAL TRAINING

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—The purpose and plan of the department of physical training remains the same; viz., to improve schoolroom conditions, to provide a scientific means of correcting and improving the various defects in posture and development, to increase heart and lung power, and to relieve the fatigue and strain of schoolroom life by means of games and plays.

It is gratifying to notice the improvement in the desk postures of the children in the various schools when reading, writing, or studying. The majority of the teachers realize the importance of a correct sitting and standing position, and insist upon it as a regular part of the school work.

Short talks on the correct posture of the body and reasons for maintaining the same have been given in the various class rooms. The habitual posture of each child has been carefully tested as in previous years, and, in so far as it was possible to know under existing conditions, every case where a tendency to special curvature was

tested, a letter was sent to the parents, and special exercises and a physician's examination recommended.

At the beginning of the school year, in addition to the regular measurements usually taken, the lung power of the High School girls was also tested. The results were very gratifying.

The importance of good lung power can not be overestimated. Vital capacity is a term to denote the amount of air that can be exhaled after a full inspiration and is measured by the spirometer.

The average lung power of the High School girls was 154 cubic centimeters. The lowest lung capacity was 110 cubic centimeters, the highest 206. The average for girls of this age is 125 to 135 cubic centimeters.

The usual chest measurements were taken and the tests show an average chest expansion of $2\frac{1}{2}$ to $3\frac{1}{2}$ inches and in several cases 4 inches. The good results of general gymnastic exercises, active games and sports, and breathing exercises are clearly shown.

The High School girls spent the pleasant days of the fall out-of-doors, playing active games for the purpose of gaining this increase in heart and lung power and also for general muscular efficiency.

It is most desirable that parents and physicians should make themselves familiar with the department of physical training.

Occasionally it is necessary for a pupil to omit all gymnastic work, but only in rare cases is it advisable. The work can be adapted to the special needs of the individual case. Usually, the pupil who seeks to omit the work is the one who needs it the most. It is gratifying to know that the majority of parents realize and appreciate the value of gymnastic work and heartily co-operate with teachers.

The directed play in the schoolroom and out-of-doors

is given largely to relieve schoolroom fatigue as before stated, to provide a natural solution of the recess problem, and to stimulate and develop the nervous reaction and co-ordination of the mental faculties. It is most interesting to watch the mental development of the mentally slow child through his natural activities.

Respectfully submitted,

EDNA P. CARRET,

Director of Physical Training.

SCHOOL PHYSICIAN

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—During the year 1911, the total number of visits made to the schools was 36, divided as follows: Belcher, 10; Glover, 2; Sumner, 2; Thacher, 1; Tucker, 4; Vose, 2; Wadsworth, 15.

The visits, as a rule, indicated the presence of infectious diseases in the several communities, of which whooping cough has seemed to be the harder to control, partly because of its insidious onset at a season when common colds are prevalent, and partly, no doubt, from the indifference of individuals to it as compared with scarlet fever and diphtheria, of which there has been no serious epidemic.

With the appointment of the school nurse, there should be apparent, as the months go on, marked improvement in the hygienic conditions of the pupils, and at the end of succeeding years, we hope to have comparative data, particularly in hearing and sight tests, which will show the value of proper treatment.

Included under the headings of hygiene, hearing tests, sight tests, care of the teeth, general condition and scholarship averages, are grouped roughly, the conditions in which the records should prove of value to the community as demonstrating the good effects of proper treatment

devoted to the child, either through the medium of common sense or special treatment, or both.

It is apparent that much more care should be given to the child's clothing, teeth, eyes, or throat, than is usual, but I believe that we shall accomplish much by suggesting care for such abnormal cases as come under our observation.

The community is to be congratulated in the excellent oversight that the teachers give to their classes, which prevents the spread of contagious diseases by the early detection of suspicious signs of sickness.

Very respectfully yours,

WALTER A. LANE,

School Physician.

SCHOOL NURSE

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—Upon being appointed school nurse in the month of November, I first visited each school for the purpose of becoming acquainted with the school and its teachers. After having done this, I made weekly visits to the schools according to a regular program.

During my regular visits, I first saw those pupils who were referred to me for some special cause, and then examined the head, throat, nose, teeth, and general cleanliness of each child in turn, taking one room at a time, beginning with the lowest in some buildings, the highest in others, depending upon the judgment of the principal.

During the month of December I continued to work in the same way, examining also the eyes and ears, and checking up the vaccination certificates in the small schools.

Thus far, I have found seventy cases of pediculosis. In the cases of the small children, I visited the mothers, and instructed them as to how to eradicate the trouble.

To the larger children I explained the mode of procedure carefully, together with writing it out on paper for them. The people have been very faithful in working with the problem, and have been most grateful for help in practically every instance.

Decayed teeth I found in a majority of cases, many of the children never having used, or, in fact, owned a tooth-brush.

There are many cases of tonsils more or less badly enlarged. Many of these are to be attended to in some way during the Christmas holidays, and more in the spring.

Obstructed noses have been comparatively few. These have been treated or are to be in the holidays.

The eyes and ears of the children in the Sumner, Houghton, and two upper grades of the Thatcher Schools, have been examined. Of these, but one child had trouble with the ears, and that deafness due to an accumulation of wax, which was removed by a physician.

With the eyes themselves I found little trouble. There are, however, many children troubled with inflamed lids—all of long standing. The glasses of the children, especially the boys, have been in nearly every instance badly out of focus.

To the parents or guardians of all these children, whatever the trouble, I have sent notices or notes, and when necessary, made personal visits. Of the latter, I have made forty-three.

On the afternoon of December the seventh, I addressed a meeting of parents at the Vose School, on the subject, "Hygiene."

The results of my efforts thus far are:

Number consulting dentists	133
Number consulting oculists	13
Number consulting family physicians	22

SYDNEY CLARKE,
School Nurse.

REPORTS OF TRUANT OFFICERS

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I hereby submit to you my report as truant officer for the Belcher School for the year 1911:

Number of notices received	29
Number of pupils kept by parents	14
Number of pupils kept on account of sickness	7
Number of pupils kept for want of clothing	1
Number of cases of truants	7

Respectfully yours,

HENRY F. BRIERLY.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I have been called upon to investigate two cases in the past year, as truant officer.

Respectfully,

CHARLES H. THAYER.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I present herein my report as truant officer for the year 1911.

Number of cases investigated	19
Number of visits to schools	22
Number of visits to homes of children	20
Number of children kept at home by parents	7
Number of truants	5
Number absent on account of sickness	4
Number absent for want of suitable clothing	3

Respectfully,

TIMOTHY McDERMOTT.

CLASS SONG

Tune: "In the Gloaming"

I

Though the clouds have ofttimes gathered
 In the course of our career,
 Though our parting may cause sorrow
 In the hearts of friends most dear,
 Yet withal no grief is lasting
 Such that Time may not dispel;
 So prepare for work before you,
 Seek your duty, do it well.

II

Life in passing leaves its shadows,
 Day dreams have their setting sun;
 Thus we leave the Past behind us
 With the thought of tasks well done.
 Friendship's call goes not unheeded,
 That sweet tie will e'er be strong;
 And, as life leads ever onward,
 Mem'ries dear will round us throng.

III

O'er Life's Pathway we must wander
 Where the hand of Chance may lead.
 Some may turn and some may falter;
 Let us aid them in their need.
 From the lessons learned in school days
 Let each choose the good and true;
 And with love for those about us
 Work, till life on earth is through.

—Kathryn Hurd Powers

Winter term begins Tuesday, January 2.

Winter term ends Friday, March 29.

Spring term begins Tuesday, April 9.

Spring term ends Friday, June 21.

Fall term begins Wednesday, September 11.

MEDICAL INSPECTION REGULATIONS

SCHOOL PHYSICIAN

1. The school physician is to visit the schools whenever he is directed to do so by the superintendent of schools.

2. The school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors, and school buildings, as in his opinion the protection of the health of the pupils may require. The school physician shall make a prompt examination of every child who wishes to obtain an age and schooling certificate, as provided in Section 60 of chapter 514 of the Acts of the year 1909, and who presents to said physician an employment ticket, as provided in said section, and the physician shall certify in writing whether or not in his opinion such child is in sufficiently sound health and physically able to perform the work which the child intends to do.

3. There shall be referred to the school physician for examination and diagnosis every child returning to school without a certificate from the Board of Health, after absence on account of illness or from an unknown cause.

4. The school physician may be consulted by the superintendent of schools on any matter pertaining to the health of the children.

5. Principals shall promptly notify the superintendent by telephone, whenever in their judgment the services of the school physician are needed.

SCHOOL NURSE

1. The school nurse shall assist the school physician, follow up his recommendations, and so far as possible see that his directions are carried out.

2. She shall visit each school at such times as she may be directed by the superintendent of schools, observe the general health conditions, inspect the children as to cleanliness and obvious defects, and help the teachers by advising them on matters of health.

3. She shall report in person to the principal of the school or the teacher in charge, immediately upon her arrival each day and before her departure.

4. She shall keep such records in such form as the superintendent may determine.

5. She may visit excluded pupils at their homes; provided that such visits shall not be made in cases of smallpox, scarlet fever, diphtheria, measles, whooping cough, or mumps, and keep a record of all her visits, and the results of all her visits. She shall revisit from time to time as may be necessary.

6. She may visit the homes where there are flagrant cases of pediculosis and show the mothers how to treat the condition and encourage persistence.

7. She shall not treat cases of trachoma, but shall urge upon parents where necessary the need of treatment, and if advisable take the child to a dispensary.

8. She shall under the direction of the school physician give first aid in cases of minor cuts and bruises.

9. She shall check up vaccination records.

10. She shall make the sight and hearing tests of the children.

11. She shall urge upon parents, where necessary, the importance and value of a proper care of the teeth.

12. In general, under the direction of the superintendent of schools, she shall perform such other professional duties, consistent with the nature of her work, which will promote better hygienic living in school and home.

DISEASES

1. No child shall be admitted to school who has not been vaccinated, except upon presentation of a certificate granted for cause stated therein, signed by a regular practicing physician, that he is not a fit subject for vaccination.

2. A child who is a member of a household in which a person is ill with smallpox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed, and that in the case of smallpox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

3. A child sick with either smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps, scabies, trachoma, or other infectious disease, shall be excluded from school, and shall not be allowed to return until the teacher of the school has been furnished with a certificate from the Board of Health or from the attending physician of such person, stating that danger of conveying such disease by such child has passed; and that in case of smallpox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

4. Notice of the disease or defects, if any, from which any child is found to be suffering, shall be sent to his parent or guardian. A child showing symptoms of small-

pox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps, scabies, or trachoma, is to be sent home immediately, or as soon as safe and proper conveyance can be found, and the Board of Health shall at once be notified.

5. Children showing symptoms of pediculosis, ring worm, or impetigo, shall be excluded until danger of contagion has passed, and the parent or guardian shall be notified at once of the exclusion.

6. Whenever it is found advisable, a child who is a member of a household in which a person is ill with any infectious or contagious disease other than the foregoing, may be excluded until the teacher has been furnished with a certificate from the Board of Health of the town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

7. Each child in the public schools shall be separately and carefully tested and examined at least once in each year to ascertain whether he is suffering from defective sight or hearing, or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. Notice of any defect or disability requiring treatment shall be sent to the parent or guardian of the child, and a physical record of each child shall be kept in such form as the State Board of Education shall prescribe.

8. A household includes all persons occupying the same rooms and using the same entries.

If two or more families occupy the same house, but with separate entrances, and they use no rooms in common, such families are considered to be separate and

distinct households. All doubtful cases shall be referred by the superintendent to the Board of Health for decision.

9. A monthly report of medical inspection shall be sent to the superintendent by the principal on blanks furnished for the purpose.
